Spotlight... on the CHAIN Monkey™ System S3

While our APE Hanger™ and U Tube™ systems have clear advantages in certain applications, our mid priced CHAIN Monkey™ system can do it all. With few exceptions, it can maintain the same low visual impact that is the sought after feature of our other two systems.

Please keep the CHAIN Monkey™ System S3 in mind when you are in need of an affordable, versatile and attractive speaker rigging solution.

“Tame your jungles”... go APE on your installations!
