## DECADES OF PERFECTION

Coverking was founded in Southern California by an Industrial and Electrical Engineer who worked in Southern California's Aerospace Defense industry. The experience and knowledge acquired over decades of work on the most sophisticated defense weapons systems was applied to the relatively backward industry of cut-and-sew custom automotive accessories.

The accuracy and precision of the CAD and CAM systems led to previously unattainable levels of pattern quality, and the automation created efficiencies which allowed Coverking to produce better fitting product, in a fraction of the time, that cost less than the competition.

Today quality, technology, and service are the basis of all product lines and have led to stellar Customer Satisfaction. We know you'll be impressed!

*Skilled craftsman at our main manufacturing facility in Anaheim, California.*

# OUR FANS SAY IT BEST

This sampling of actual customer photos and comments from [www.Facebook.com/Coverking](http://www.Facebook.com/Coverking) says it better than we ever could!

**Bob N** *Mustang*  
These are awesome seat covers. They were fairly easy to install and really dressed-up the interior of my '09 Mustang.

**Beverly** *Mustang*  
Just put my new dashboard cover on. It's awesome! Love it!

**Bill** *Mustang*  
Before and After Coverking. I love it.

**Ryan** *Mustang*  
Love the new look!

**Ryan** *Mustang*  
They were easy to install, fit like a glove, and best of all they are washable.

**Tom** *Porsche Carrera 4*  
My 1999 Porsche Carrera 4 deserves some TLC, thank-you Coverking

**Paula** *Mustang*  
Love these seat cover, they look and fit great!

**Tony** *Mustang*  
Just put the new seat covers on. They look really sharp outside!

**Roger** *Shelby GT-C*  
2008 Shelby GT-C with Coverking cover

**Jim** *Mustang*  
Great car cover!! Love it.

**Jeff** *Jeep*  
Coverking neoprene covers on a 2012 Jeep at the sand dunes. Perfect combination!

**Josh** *Jeep*  
I love the way my new seat covers look! Jeep look new!

**Luan** *Cargo Liner*

**Greg** *GMC*  
Just purchased this sun shade from Coverking. It fits great, and keeps this Big Red GMC cool on the inside. Thanks Coverking!

**Spencer** *Mustang*  
Fits well and matches the rest of my car. Thanks!

**Ron** *Mustang*  
A picture is worth a thousand words

# TRIGUARD™

## LIGHT WEATHER CONDITIONS

An economical three-layer material that guards your vehicle against light weather conditions and the sun. Great for occasional use, or when in a carport or under a roof. The cover for when you want something quick and cheap without getting emotionally involved. Excellent breathability and fortified with the finest UV light retarding agents.

GRAY  
198

# COVERBOND 4™

## MODERATE WEATHER & LIGHT IMPACT

A super-thick, four layer material that is more waterproof than Triguard™. It's thickness even shields against dings and bings and other things resulting from minor contact including light hail. Affords your vehicle a degree of protection when you're rearranging the carport, or on those rainy days when the kids are driving you nuts and you tell 'em to go play in the garage.

# MOSOM PLUS™

## RUGGED ALL-WEATHER PROTECTION

A five-layer material that is the only cover of its kind on the market, consisting of a meltdown polypropylene layer sandwiched by two outer layers of polyester spunbound material. Offers the protection of Coverbond 4™ with an added waterproof layer sandwiched in the middle, and a soft fleece inner liner. As Homer Simpson might say, "Mmmm. Soft fleece inner liner..."

GRAY  
026

# SILVERGUARD™

## AMAZING UV PROTECTION

Reflects the rays of the hot sun and provides great UV protection, while protecting against other elements, as well. However, if you live in what most of us would characterize as an "extreme" climate (big storms, hail, locusts) we recommend you consider Stormproof™. Or, you know, moving. Rugged 300 denier polyester woven fabric with a unique encapsulated coating which provides the amazing UV protection. Perfect for general use in especially sunny climates.

GRAY  
E62

REALTREE HARDWOODS  
E55

# SILVERGUARD PLUS™ • \$\$

## AMAZING UV PROTECTION PLUS SOFT INNER LINER

The impressive protection of our standard SilverGuard™ cover combined with a plush, non-abrasive lining to pamper your vehicle's finish. Reflects the rays of the hot sun and provides great UV protection, while protecting against other elements, as well. However, if you live in what most of us would characterize as an "extreme" climate (big storms, hail, locusts) we recommend you consider Stormproof™. Or, you know, moving.

GRAY EP3

# SATIN STRETCH™ • \$\$\$

## ULTIMATE INDOOR PROTECTION

For indoor use only, the Lycra fibers optimally stretch to show off the curves of your car. The special stitching methods, invisible seams, bright colors, and museum quality fit make this our sexiest cover. The inner-liner soft-as-butter fleece is specially designed not to rub off on convertible tops. This cover fits so snugly that when people try on a glove, they say, "Wow, it fits like a satin stretch cover!"

OPTIONAL RACING STRIPES AVAILABLE

# STORMPROOF™ • \$\$\$

## ULTIMATE OUTDOOR PROTECTION

Coverking's top-of-the-line outdoor car cover fabric is durable, washable, breathable, lightweight, thin, and won't scratch your car. Not only that, but it's "inherently" water-resistant – no coating or laminates added – so even after 2-3 years, it repels water as good as new. The only thing our Stormproof™ doesn't have is a driver's license! This magnificent material is the culmination of decades of materials engineering initiative.

**OPTIONAL RACING STRIPES AVAILABLE**

# AUTOBODY ARMOR™ • \$\$\$

## BEST INDOOR & OUTDOOR PROTECTION

No, this isn't something out of "Iron Man." Think Satin Stretch™, only with a blend of Silverguard™, making it ideal for outdoor use. Highly breathable yet highly water resistant, due to its ability to stretch while remaining waterproof. Protects your car in environments you probably shouldn't even have a car. Come to think of it, maybe this is something out of "Iron Man." A layer of Thermoplastic Polyurethane provides your vehicle with the best water resistance available from a cover.

# SADDLE BLANKET

## ENDURING STYLE

The styling on these rugged covers evokes the wild, wild west and has extra cushioning, for comfort, and are made to take a lot of wear and tear. Never goes out of style - just remains, year in year out, one of our most popular covers.

BLACK  
1D1

TAN  
1D5

WINE  
1D6

BLUE  
1D8

# BALLISTIC

## ULTIMATE DURABILITY

These seat covers are tough. If Clint Eastwood were a seat cover, we're pretty sure he'd be ballistic/cordura. You don't even want to look at these covers the wrong way, that's how tough they are. Perfect for pet-owners, construction workers, parents with "active" kids, and folks (you know who you are) who treat their vehicles like a temporary receptacle bin until "clean-up" day.

BLACK  
1E1

GRAY  
1E2

TAN

CHARCOAL  
1E4

CASHMERE  
1E5

# POLYCOTTON DRILL

## TOUGH YET COMFORTABLE

What "Clint" is to ballistic/cordura, Chuck Norris is to polycotton drill. These washable covers combine the comfort and feel of cotton with the durability of polyester, and can take a lot of punishment (Chuck, we're not saying you feel like cotton! Just that you're durable and can take punishment! Ok???) Popular with soccer moms, service professionals, salespeople, mini-van owners and other folks with a "pile-in-now/clean-up-later" lifestyle.

BLACK  
1P1

GRAY  
1P3

TAN  
1P5

# SPACER MESH \$

## COOL & SPORTY

These smart-looking two-tone covers are a favorite with sports car owners and the merely "sporty," alike. This unique fabric, with its large number of closely-spaced holes knit into the weave keeps everything cool, dry and comfortable, especially in warmer weather. Speaking of "cool," these covers look so good, they can make everyone forget you're driving your grandmother's old clunker.

# VELOUR \$\$

## LUXURIOUSLY COMFORTABLE

Velour is commonly used in many domestic luxury vehicles, so these covers are a nice, economical way to beautify your interior. If your uptight aunt never let you plop down on her velour couch because it wasn't meant for "sitting," or she kept it mummified in a plastic wrap, here's your chance to see what you were missing.

# NEOPRENE (NEOSUPREME) \$\$\$

## AFFORDABLE & ACTIVE

What "leatherette" is to leather, "neosupreme" is to "neoprene." A lightweight, inexpensive, water-resistant alternative to neoprene, these covers are vibrant, active, and dare we say it - sexy! Folks who ride in these seats instantly become 50% sexier! (Results may vary). We couldn't say it if it weren't true!

# PREMIUM LEATHERETTE • \$\$\$

## AFFORDABLE LUXURY

Shhh! These padded, high-grade vinyl covers look and feel so much like leather, but at a fraction of the cost, that some major auto makers install them to "class up" their vehicles. Water-resistant and easy to clean, it's like having "leather," only without the "Oh, no, I spilled my soda on the leather" worry.

# ALCANTARA • \$\$\$

## EUROPEAN COMFORT

Alcantara is a material that doesn't fit into existing product categories, but defines a new category all it's own. It's a style that's been so popular with the European luxury car market that we decided to bring it stateside. Combining the softness of suede with the luxury of leatherette, Alcantara is a truly sleek, stylin' fabric that is breathable, durable, washable, and simultaneously stain-resistant and irresistible.

# NEOPRENE (GENUINE CR-GRADE) • \$\$\$\$

## WET SUIT MATERIAL

Let's see: It protects against dirt, moisture, spills, pets, kids, and comes in a wide variety of styles. It's popular with owners of Jeeps, SUVs, trucks, convertibles, and racers. We just read this description over and bought a set ourselves! Oh yeah - like it says, this is the genuine CR-Grade neoprene article. We were "shocked, shocked" to learn that some cut-rate merchants try to pass off "neosupreme" as "neoprene." Accept no substitutes!

# GENUINE LEATHER

## PREMIUM LUXURY

Can you say "luxurious?" For the "accept no substitutes" crowd, this is the same durable yet comfortable genuine top-grade American cow leather found in high-end luxury cars, and tanned specifically for automotive interior use. Go on. You know you want it.

**“Protects from the hot sun and reduces the glare. Fit right in just like from the factory. PERFECT!”**

**“ZIG-ZAG” STITCH**

We use this more difficult stitch that acts as a hinge that allows the material to follow the contours of the dash perfectly.

**“BLIND” STITCH**

Our competitors use this easier stitch, which causes the material to lift off the dash - causing poor fit and performance.

## 70 OZ. LUXURY CARPET FLOOR MATS \$\$\$

These are the thickest, heaviest, deepest pile and most plush floor mats offered by any aftermarket company. The standard Coverking 40 ounce carpet leads the industry. Not satisfied with our own premium material, Coverking has produced a 70 ounce nylon carpet. These mats are backed with a thick no skid polyurethane rubber which retains the position of the mat to conform to the foot well. The mats are beveled by hand around the emblems. The yarn is chemically treated for stain and soil resistance.

## 40 OZ. PREMIUM CARPET FLOOR MATS \$\$

Our premium custom-fit carpet floor mats are superior in quality to the original floor mats offered by most auto manufacturers, including manufacturers of luxury European vehicles. These mats are backed with a thick no skid polyurethane rubber which retains the position of the mat to conform to the foot well. The mats are beveled by hand around the emblems. The yarn is chemically treated for stain and soil resistance.

## CUSTOM VINYL FLOOR MATS \$

These mats are made from heavy clear vinyl with nibbed backing. These "floor mat protectors" allow the vehicle's carpet to show through in its natural color. Protects your factory floor mats or carpet from dirty or wet shoes covered with mud, snow, sand, dirt, or snow. Protector mats look great with any interior color.

## FLOOR MAT CONFIGURATIONS

## CUSTOM CARGO MAT

Don't let spills, mud, and sharp objects ruin your interior cargo carpets. Keep your cargo floor safe from hazards with these durable carpet or clear vinyl mats that will complete your vehicle's protection and match your floor mats. Custom cut to fit your vehicle's cargo mat perfectly.

## CUSTOM CARGO LINER

This custom-fit liner is made from ultra-tough Velocitex™, a tough heavy-duty vinyl, and designed to provide superior protection for your cargo space. It offers complete protection including the backs of your rear seats, sides of cargo space, and even a large flap that protects your tailgate and/or bumper from the hazards of loading/unloading.

# CUSTOM FRONT END PROTECTION

HOOD  
PROTECTOR

LOGO  
OPTIONS

MILDEW  
RESISTANT

HIGH-QUALITY  
VINYL

## CUSTOM FRONT END MASK

Coverking front end masks protect your vehicle's front end surfaces. The soft lining that is underneath the product's high quality vinyl will protect your paint from scratches. The tough vinyl on the outside, which is a rich looking black, will absorb the impact of all the pebbles and other objects that could potentially result in paint damage. Velocitex Plus has an extra soft white liner to pamper your finish.

## CUSTOM HOOD PROTECTOR

This is a protection solution for the front of vehicle's hood from little rocks, bugs and other road debris you would hate to wash off the hood each time. Produced with the use of Coverking's famous CAD/CAM systems. Custom Hood Protector's installation is quick and it fits like a glove. Velocitex Plus has an extra soft white liner to pamper your finish.

# CUSTOM SUNSHIELDS

CUSTOM CUT FOR COMPLETE PROTECTION

SOFT INNER LINER

FOLDS OR ROLLS FOR EASY STORAGE

HIGHLY REFLECTIVE OUTER SHELL

## CUSTOM SUNSHIELD

Designed to minimize the heat buildup and damage from ruthless UV rays that can damage the interior of your vehicle. Rolls up for easy storage. Unlike the "bubble wrap" sunshades available, Coverking offers a high quality tri-laminated material cut to exacting standards and finished with a black felt edging.

CSS265

## CUSTOM SUNSHIELD ULTRA

Features a patented, three-layer design that blocks up to 99.8% of heat and radiation. The first layer of the sunshade is made from coated silver polyurethane to reflect UV rays away from your vehicle, while the second and third layer work in tandem to provide total insulation to keep your vehicle at a reasonable temperature. The Coverking Sun Shield Ultra is also equipped with vertical seams that fold for easy storage.

# CUSTOM WINTER PROTECTION

## CUSTOM FROST SHIELD

Keep snow and ice from building up on your windshield with this durable Frost Shield custom made for your specific vehicle. Attaches to your vehicle in seconds with adjustable nylon straps. Specially designed attachment system closes in your front doors to resist theft and high winds. Custom fit for perfect protection.

VELOCITEX  
B75

## CUSTOM WARM FRONT

Heavy-duty vinyl exterior and quilted underside keeps engine operating at precise temperatures during cold weather. Air flow doors cool engine and enhance fuel economy. Easy to install with no-drill fasteners and snap on domes.

VELOCITEX

# Perfectly Protecting Your Corvette™

Coverking understands that when dealing with the Corvette™, we are dealing with automotive royalty. The Corvette™ is a blend of our own hot wheel heritage with the vision of an European sports car. We know you have flawless taste; therefore, the only advice we can give you is to select your automotive coverings with respect to where you are storing your legend and what kind of weather and lifestyle you are exposing it to. We have spent countless hours on researching and developing our car accessories to fit your needs. We want you to know that Coverking is nationally and internationally certified by the NSF International Registration Ltd. We also achieved the highest rating during both certifications, as a result our Corvette™ covers, seat covers, dash covers, floor mats, sun shields and kick guard seat protectors are all QS9000 and TS16949 quality.

CUSTOM  
MADE FOR YOUR VIPER™

## Perfectly Protecting Your Viper™

Coverking is the only manufacturer of custom vehicle covers to capture the essence of Viper™ by custom producing the racy designs and patterns in fabrics and colors to suit your dream car. Don't settle for less. Coverking Satin Stretch™ will show every muscle, every contour of your Viper™. You can mix and match colors to customize your own design just like you customized your Viper™. For the best outdoor / indoor cover for your Viper™, select Autobody Armor™, the world's best vehicle cover. Not only will it afford protection from any natural and manmade hazards, it will show off your Viper underneath. Autobody Armor™ has super high water resistance and super high breathability; two opposing attributes at their highest.

# ORDERING

[WWW.COVERKING.COM](http://www.coverking.com)

Shopping is easy - simply select a product, choose your vehicle, and customize. You can track your order's production and shipping online as well. If you have any questions, please call our helpful US-based customer service department.

## ORDERING FAQ

### 1. Can I see a sample of a material before I order?

Just call 1-800-COVERKING and ask one of our customer service representatives to mail you one of our many swatches.

### 2. What is a good Coverking support resource online?

Please visit [support.coverking.com](http://support.coverking.com) to search our knowledge base, submit a request, and check existing requests.

### 3. What is the status of my order?

Our sophisticated order tracking is embedded in our production processes. You can see exactly what our skilled craftsmen are doing on your product by visiting [www.coverking.com/t-expedite.aspx](http://www.coverking.com/t-expedite.aspx)

### 4. Is it safe to use my credit card on your website?

Coverking.com is secured by 128Bit COMODO SSL, a program that hosts the strongest possible encryption available and cannot be hacked into. The information submitted between the user and Coverking.com is fully encrypted and protected.

## TRACK YOUR ORDER

You can track your order through the production steps and shipping. <http://www.coverking.com/t-expedite.aspx>

Coverking customers love the ability to check the progress of their custom orders - tracking them through the cutting, stitching, packaging stages.

Our sophisticated tracking system is embedded in our production processes which allows a complex algorithm to accurately predict real-time ship dates.

**1-800-COVERKING** (562-3274)

When you call Coverking (6AM to 5PM PST), you'll speak to one of our friendly staff in Anaheim, California. Place your order by phone particularly if you are ordering custom embroidery. If you are ordering seat covers or a car cover, we encourage you to order online. We look forward to speaking with you!

# BECOME A DEALER

## SELLING COVERKING PRODUCTS

Coverking welcomes new distributors who are committed to selling quality automotive accessories with excellent customer service. Coverking provides several web-based tools which integrate with an existing web store to provide the entire Coverking custom accessory lineup. Coverking also offers traditional marketing materials for retailers, as well as an O.E.M. line where our products can be privately labeled or made to a particular specification.

## ELIGIBILITY

Coverking requires potential distributors to submit an application. Distributors are chosen at Coverking's discretion. Coverking products are also sold through Automotive Accessory Distributors such as Keystone. Scan this QR code to start your application or email [sales@coverking.com](mailto:sales@coverking.com) for more information.

# PROUDLY MADE IN THE USA

## HISTORY

Coverking was started in August 1986 by an aerospace executive who had the foresight to see the need for mass customization in the manufacture of personalized automotive accessories.

Mass customization is a technology pioneered by Coverking to manufacture a highly customized special order product in the shortest time possible. Coverking presents a customer to special order a Coverking product for virtually any vehicle from the latest models to the ones manufactured in the early twentieth century.

The success of Coverking is attributed to a passion to be the leader in innovation and automation. Years of valuable experience in sophisticated aerospace technology formed the foundation of Coverking which led the industry by being the first to obtain the highest quality certification, use of state of the art CAD / Cam technology and continues to lead the industry by combining fashion and technology in introducing truly innovative designs in automotive accessories.

## CULTURE

Coverking is a customer focused company. Every Coverking employee is trained to keep the end user of the product foremost in each and every activity performed in the company. This is supported by world class manufacturing facilities, state of the art manufacturing equipment systems, procedures and a dedicated work force.
