CTs Series 2-channel

Features

- High power-density, with all two-channel models in a 2U chassis
- Direct constant-voltage (70V/100V/140V/200V) or low-impedance (2/4/8/ ohm) operation
- Input sensitivity Independently selectable for each channel
- 5 Year No Fault Warranty with 1 Year Advance Replacement Program
- TLC protection circuitry protects the amplifier from long-term excessive heat by subtly and dynamically reducing the gain only when necessary
- Switchable high-pass filter for each channel provides low-frequency roll off to eliminate step down transformer saturation when used in distributed systems
- Comprehensive array of indicators including Power, Data and Bridge, along with Ready, Signal, Clip, Thermal and Fault for each channel, provide accurate diagnostics
- Legendary Crown AB+B (Multi-Mode®) output topology in the CTs 600/1200 and Class I (BCA®) output topology in the CTs 2000/3000 offer the best in amplifier reliability

Crown's Five-Year, No-Fault, Fully Transferable Warranty
Crown offers a Five-Year, No-Fault, Fully Transferable Warranty for every new Crown amplifier—an unsurpassed industry standard. With this unprecedented No-Fault protection, your new Crown amplifier is warranted to meet or exceed original specifications for the first five years of ownership. During this time, if your amplifier fails, or does not perform to original specifications, it will be repaired or replaced at our expense. About the only things not covered by this warranty are those losses normally covered by insurance and those caused by intentional abuse. And the coverage is transferable, should you sell your amplifier. See your authorized Crown dealer for full warranty disclosure and details. For customers outside of the USA, please contact your authorized Crown distributor for warranty information or call 574-294-8200.
