HARDIGG & THE MILITARY: PARTNERS IN PERFORMANCE

For over half a century, Hardigg engineers have proudly developed custom solutions for the transport and packaging needs of the US Military. Our innovative products enable sensitive equipment to travel through hostile environments and arrive operational. Many of our models have been tested in the field as well as in combat situations. By developing custom solutions, testing new materials and continuously improving designs based on user feedback, we have been able to build this robust line of cases that proudly live up to the harsh demands of the military. We look forward to solving your toughest shipping issues and seriously encourage your requests for specific-need cases. After all, in the field, top-notch performance matters most.

THE HIGHEST LEVEL OF CONFIDENCE IN THE FIELD

Hardigg Mobile Military Cases keep your sensitive and vital equipment safe from moisture, dust, sand, salt and even impact. Safe inside, your gear is protected against drop damage while the rib design maximizes stacking and stability en route. When you open a Hardigg Military case, be assured you'll find what you packed inside arrives fully operational. We know lives are counting on you, so you can count on us.

CHOOSING THE PERFECT RACKMOUNT CASES

From the most delicate equipment to slightly more rugged electronics, Hardigg has a case with the perfect combination of shock and vibration protection and portability. Use this basic guide to help find the exact configuration of access and stabilizing security suited to your specific needs. If you require a case with a capacity beyond 340 lbs, please contact us for more options or custom solutions. When it comes to transporting and protecting equipment in use, nobody matches Hardigg's experience or dedication.

Classic Rack™

- The best shock and vibration protection available.
- Protection for equipment from 20-340 lbs.
- Equipment typically will have 15-30 G fragility.
- Ideal for rack mountable precision test, electro-mechanical, medical and biological diagnostic equipment, memory storage devices, meteorological instruments, mobile operations, broadcast and video gear, laboratory equipment, aerospace instrumentation, servers, military mission planning, command and control equipment, and flight simulators.

SuperMAC™

- A space-saving, lightweight case with a removable rack option.
- Protection for equipment from 20-200 lbs.
- Equipment typically will have 40-70 G fragility.
- Ideal for field-deployed equipment and sheltered applications. Typical uses include control consoles and panels, radar and microwave antennas, solid-state circuit electronics, or radio, TV and communications equipment

MAC Rack™ (Mobile, Accessible, Compact)

- Ideal for semi-ruggedized equipment that requires good shock and vibration protection in a light, compact case.
- Protection for equipment from 20-200 lbs.
- Equipment typically will have 50-80 G fragility.
- Ideal for field-deployed and sheltered applications. Typical uses include solid-state circuit electronics, radar and microwave antennas, control consoles and panels, or radio, TV and communications equipment.

ProRACK™

- Lightweight, space-efficient, front and rear opening transport container (not a shock mounted/cushioned rackmount system) for field.
- Designed for equipment up to 75 lbs.
- Equipment typically will have 80-120 G fragility.
- Rugged 18" deep cases with aircraft aluminum frame suspended on plastic fins to protect your gear from direct impact transmission.
- Often used for field-deployed amplifiers and electronic, medical or testing equipment components.

MOBILE MASTER.

MOBILE MASTER.

Sensitive equipment and crucial supplies arrive ready to deploy in Mobile Master 463L pallet-ready cases. Non-slip ribs stack all four sizes firmly together to get the maximum usable space per pallet while no moisture or contaminants get through to the supplies. Chemical resistance makes international delivery a breeze and lightweight materials let you pack more goods per shipment. By sea, air or truck – nothing ships more efficiently than Mobile Master.
