Introducing KATA

KATA designs, develops, and manufactures quality, state-of-the-art protection solutions and carrying systems. KATA's products are designed around the human frame. It's not enough that the equipment fits the case, the case must also fit the user!

In 1983, two friends, members of an elite military unit, began exchanging ideas about how backpacks and military equipment cases could be made more modular and ergonomic. Based on their own field experience, they went on to design a line of combat-ready gear. They named their company KATA. In 2005 KATA joined the Vitec Group and under the Photographic Division the company has been expanding and flourishing.

For many years KATA has been creating high-end products for professionals around the world. KATA Design HQ and part of the manufacturing facilities are based in Jerusalem, Israel.

Extend Your Warranty

Kata warrants each product to be free of defects in material and workmanship for a period of 5 years from the date of purchase. Lifetime Warranty Extension: Now available for free only for a limited time period, if you register your product on-line! For free extended warranty please visit our web site: www.kata-bags.com

ISO-9000

KATA complies with the rigorous requirements of ISO-9001:2000 for quality management system.

The ISO (International Organization for Standards) is a worldwide federation of national standards committees from over 100 countries.

KATA established its reputation by outfitting Protection and Security Special Forces with auxiliary cases, utility & protective vests and backpacks. Tough, durable, yet remarkably lightweight, KATA products are constructed to withstand rough treatment and harsh conditions over long periods.

Protection and Security
Former Secretary-General of the UN, Mr. Kofi Annan wearing KATA protective vest.

In 2004, KATA launched the Global Digital Collection (GDC) for the Professional Digital Photographer and Videographer. The collection includes carrying solutions specifically designed for delicate digital equipment incorporating KATA's latest development - the unique TST (Thermo-Shield-Technology).

Photo GDC
Global Digital Collection Producer Charles Boileau carrying HB-207 on the snow covered mountains of Lebanon.

For the Professional Video Industry KATA has created a completely innovative line of products for field production (ENG & EFP). The line is distributed and supported worldwide by a network of dealers and distributors. In over 40 countries, we are there to support you wherever your work may take you.

Pro Video
On location in the most extreme conditions in Antarctica. KATA allows you to focus on what is important, the shot.

KATA has provided an outsourcing service to Hi-tech Industries that manufacture sensitive equipment for field operation. KATA is involved from the research to the development and design stage through production. A prominent example of such an enterprise is the KATA - MANFROTTO collaboration which is responsible for the entire line of Manfrotto bags worldwide.

High Tech Industry
KATA joined forces with Manfrotto to become the sole designer and manufacturer of all their Camera Support Carrying Solutions.

Global Digital Collection

Kata's Global Digital Collection (**GDC**) is a collection created for the professional digital photographer and digital videographer. It is comprised of protective carrying solutions designed for their special needs and requirements and for the sensitive and expensive digital equipment they carry.

The **GDC** incorporates kata's latest development the unique TST (Thermo-Shield-Technology). It continues in kata's tradition of an ergonomic structure, stylish design and meticulous material selection.

KATA TST

TST (Thermo-Shield-Technology) is a state-of-the-art solution that provides the perfect protection level for digital equipment while creating an extremely lightweight product.

The outer surface ① of the TST is thermo-formed in a protective “rib-shape” construction (Patent Pend.). It is made of Super Nylon® - a Mil-Std, double cord, water and dust proof, high tenacity and abrasion-resistance fabric ②. Underneath, a cross-linked, closed cell PE+EVA shield ③ is impact and shock protective while providing a comprehensive insulation against cold, heat and moisture. The internal padding ④ provides the necessary cushioning and vibration reduction. The lining is KATA’s unique Yelloop material ⑤ which is fabricated especially for the anti-scratch and anti-static requirements while allowing divider attachment for internal partitioning.

KATA EPH SYSTEM

KATA's Ergonomic Photo (EPH) System is modular and versatile. The EPH System allows you to set the configuration required for the mission. You can attach two or three products that are "EPH System Compatible" into a set: The W-92/94 (waist-packs) together with the R-101/102/103 (rucksacks) will create a big backpack. The T-212/214 (torso-packs) and the HB-205/207 (backpacks) will give a combination that has high storage volume and optimal weight distribution. These are only two of more than 15 different possible combinations.

Camera Backpack BP-502

The BP-502 GDC backpack is designed for pro D/SLR cameras with zoom or tele lenses, laptop and many accessories.

Thermo-Shield-Technology (TST) combined with reinforced plastic boards and thick closed cell padding create this lightweight, ultra-protective case.

The main compartment features a unique internal dividing system, which allows for a diversity of equipment setups, while ensuring easy accessibility. Using the Modi-Vers divider system, you can customize the interior to meet your exact requirements.

The camera is placed in the center for easy access via the small top opening flap. Related equipment is stored around the main piece, and secured in place by flap doors that can be folded away when needed.

Additional internal and external pockets provide a variety of storage options for both large and small objects.

A flat rear compartment is designed to securely hold and protect a laptop in a padded sling and store all the related accessories.

Carrying options offer an advanced adjustable and ergonomically designed harness system, which can be concealed, Insertrolley connection sleeve and injected grip handle.

The BP-502 includes a double-sided elements cover, a tripod sling, securing straps and camera straps which are connected to the harness.

Camera Backpacks R-101/102/103/104/106

The KATA series of Rucksacks give you quick, separate access to the camera & lens in the central compartment, while the rest of the equipment surrounding it remains secure. The entire internal compartment of the bag is customizable with the provided divider set making it easy to create custom compartments around your unique equipment. Each Rucksack is provided with an elements cover which will allow you to carry your bag safely in extreme weather conditions.

The **R-101** holds a medium or small D/SLR body with up to 70-200mm lens attached, 2-4 small lenses or accessories, or a mini DV camcorder. The rear compartment can fit a small laptop up to 12".

The **R-102 and R-103** hold a Pro D/SLR body with up to 300mm lens attached, an extra body, 4-5 smaller lenses, or a DV camcorder.

The **R-103** also features a rear laptop compartment that will hold 15" laptops and even a 17" Powerbook.

The **R-104** contains all the features of the R-103 but with a separate removable compartment to hold up to a 17" laptop. When not carrying, this compartment can be used for personal items such as a jacket. Two removable side pockets hold additional accessories.

The **R-106** holds a pro D/SLR camera or two with battery grip and large telephoto lens with 5-6 additional smaller lenses or camcorder such as the Sony EX1, Canon A1/G1 or similar sized camcorder. The rear laptop compartment will hold up to most 17" laptops. All rucksacks are supplied with a tripod holder, which will allow you to carry the tripod on the central part of the Rucksack or on one of the sides.

Camera Backpacks HB-205/207

KATA's HB Hiker Backpack's will allow you to carry your equipment on long distances comfortable and safe. Modular dividers will allow you to customize individual compartments around your equipment while additional storage pockets on the outside of the bag will allow you to carry or small tripod or water bottle. The HB's are the perfect solution for outdoor photographers and videographers. HB-205 fits 2-3 D/SLR bodies with up to 8 lenses (up to 400 mm) or a DV camcorder up to the Sony FX1, Panasonic DVX100 and similar + accessories.

HB-207 fits 2-3 D/SLR bodies with up to 8 lenses (up to 400 mm f 2.8) or a DV camcorder such as the Sony HDR Z1, Panasonic HVX200 and similar. A rear compartment will hold up to a 17" laptop.

Laptop Case RL-302

The RL-302 laptop rucksack is designed for professionals on the go. This rucksack will organize, store and protect up to most 15" laptops, as well as your traveling gear.

A separate laptop sleeve is integrated in the TST protected mid section of the rucksack allowing for quick & immediate removal during airport security checks. This bag can be used as well as an independent laptop sleeve. Large front and rear padded compartments with organizer panels will hold folders, paperwork, laptop accessories and much more. Additional pockets throughout, will hold all your personal effects such as mobile phone, PDA, MP3 player, etc. The comfortable harness can be folded out of the way to slide over trolley handle for the ultimate laptop travelling bag.

Holsters H-10/12/ 14/16

These revolutionary holsters provide TST protection while allowing for quick access to the D/SLR and zoom lens set. The camera can be held in place by looping the divider around the lens vertically or positioning it horizontally and creating a bottom compartment for additional lens or flash-unit. The media kit will hold batteries and memory cards. 5 padded accessory pockets (inside and outside) will store filters, cleaning kit, light meter, cell-phone, PDA and many more. A handle, shoulder strap and waist belt connection, allow for comfortable carrying options of the holsters. The holsters feature double closure system: a 2-slider zipper and a one-hand operating buckle. In addition to the rain-protected lid, the holsters are equipped with KATA's unique elements cover: black side out in rain, and in sun reverse to silver side for heat deflection.

For small D/SLR with medium range zoom lens.

Torso-Packs T-212/214/216

KATA's Torso Packs are uniquely designed to keep your D/SLR or Camcorder in quick-draw position, while TST protected. They enable frontal carrying and quick draw without weighing on your neck. The Torso Packs are the central element of KATA's EPH System. They can be used on their own or attached to the W-92/94 Waist Packs or to one of the backpacks.

T-212 fits a **medium** D/SLR with lens attached.

T-214 fits up to a **large** D/SLR with lens attached plus an additional 2 smaller lenses and flash.

T-216 fits a **large** D/SLR with **grip** with lens attached plus an additional 3 smaller lenses and flash or a Mini DV Camcorder similar to the Sony HC-1, Canon GL2/XM2 & similar. The external pocket will hold an additional lens or other accessories.

Sling S-312

The S-312 incorporates TST protection and is ergonomically designed to carry a small digital camera or pocket camcorder. The unique diagonal configuration offers an alternative to traditional carrying methods and fits sizes S to XL. When needed the S-312 enables a waist pack carrying option as well.

A concealed compartment holds valuables close to your body. Other ergonomically designed pockets will hold cell-phone, PDA, pen, media cards, spare batteries, keys and more.

Name:S-312 Order code: KT S-312

Weight	0.8 Lbs		0.4 Kg	

Waist Packs W-92/94

KATA's innovative waist packs are designed for all D/SLR systems or mini DV sets. The main compartment can be arranged to fit your gear by using the provided divider system.

A Pro digital SLR with 2-4 lenses and additional gear like flash, charger, etc., will fit in this roomy pack. Two padded expandable pouches on both sides accommodate lenses or any other item you would like to have close at hand. Additional pockets in the lid and front will store all required accessories.

The waist packs feature numerous carrying options. Frontal carrying for quick access allows you to open the cover away from your body. You can also carry on the rear during long hikes. A unique feature of these cases is they allow you to carry as a shoulder bag with the shoulder strap while the waist belt tucks away or can be buckled for extra stability.

Full protection on the main zipper and KATA's unique elements cover makes sure your sensitive equipment is well protected from the elements.

Weight	2.2 Lbs		1.0 Kg	

Medium Shoulder Cases OC-82/84

The OC bags are designed to withstand hard use in any environment. Both compartments will allow for a custom fit to meet your exact requirements. The cases are supplied with ample modular dividers and if additional division is necessary Kata's Modi-Vers Kit is included.

A large external padded pocket for personal effects and an internal accessory pocket panel will allow for additional storage solutions.

OC-82 will fit 1-2 D/SLR bodies, 3-4 lenses & accessories. Can also be used for mattbox + filters, or as a Lighting Bag for a small lighting kit.

OC-84 will fit 2-4 D/SLR bodies with 6-8 lenses & accessories, or a Medium Format Kit. Can also be used as a Lighting Bag for a small lighting kit. The OC-84 features two carrying handles for top and side carrying and also a connection system for tripod or lighting stands. An individual laptop case is supplied and can be used separately.

Medium Shoulder Cases EXO-7/12

EXO-7 and EXO-12 are small shoulder bags which fit a variety of digital equipment from a medium sized SLR with many accessories up to a large SLR with the essentials. The EXO-7 is the smaller version of the same case which accommodates a digital SLR with mounted lens up to a 70-200mm lens and accessories.

In both, a back service door opens to a lower compartment that can hold charger, batteries and cables. If needed, the lower divider can be removed to create a larger and deeper main compartment.

Specially designed pouches are included and can be attached or removed from both ends of the bag. The interior can be customized with Modi-Vers and Filter Sleeves. Shoulder Strap and a belt loop are included.

Laptop Case SL-602

The SL-602 laptop shoulder case is designed for professionals on the go. The case will organize, store and protect your laptop as well as providing plenty of room for accessories, books, magazines, etc. The SL-602 is designed to open from the top to efficiently access all your belongings. Large front and rear padded compartments with organizer panels will hold paperwork, laptop accessories and much more. Front pockets will hold all your personal effects such as mobile phone, PDA, MP3 player, pens, etc.

A separate padded laptop shoulder bag is inserted in the TST protected mid section of the laptop case allowing for quick & immediate removal when necessary (for instance airport security checks). This insert can be used as a smaller, independent laptop case for travelling light.

Small Shoulder Cases PB-44/46/48

The PB-44, PB-46 and PB-48 are a family of comprehensive camera bags in 3 different sizes. They are designed with style, ergonomically engineered and TST protected. The main compartment holds a D/SLR in top grip position while on the two sides you can store and protect lenses, flash and other accessories. Padded internal and external pockets will accommodate additional equipment. Carrying options include: Sturdy padded grip handle/Shoulder strap/Back loops for a waist belt. The bags can also be connected to the KATA S-308 sling platform for an alternative carrying mode and additional storage space. When caught in the rain, use the elements cover.

Small Shoulder Cases C-56/58/59

The C-56, C-58 and C-59 are identical in all, but size.

They are designed with style, ergonomically engineered and TST protected. By using the dividers, the main compartment can accommodate a D/SLR camera with zoom lens or a camcorder, with additional lenses, flash unit, charger and other equipment. 5 padded internal and external pockets and a separate media kit will hold extra gear. Carrying options include: Elasto-Rubber handle/shoulder strap/back loops for a waist belt. The cases' folded zipper and unique "internal wall" provides double protection from moisture and dust. In rain, use the elements cover, black side out, and in sun reverse to silver for heat reflection.

Rain Cover E-690

The E-690 is a practical cover for small SLR and digital cameras such as the Nikon D70, the Canon Rebel series, Sony Mavica series, similar and smaller cameras. When suddenly caught by a rain shower the E-690 slips quickly over your camera and allows you to keep on shooting.

Access to all camera and lens controls via two side sleeves.

A clear view through the transparent TPU enables easy monitoring all the time. Full-length double zipper provides bottom closure when hand held or on a tripod.

Name:E-690 Order code: KT E-690

E-690	Weight	0.2 Lbs	0.11 Kg
-------	--------	---------	---------

Rain Cover E-702

The E-702 lets you continue shooting in harsh weather conditions. It slips quickly over the camera and is easily secured with the adjusters and pull-cords. Two roomy sleeves provide hand access to all camera and lens controls and the transparent TPU enables easy monitoring all the time. An adjustable PP hood fits a variety of lens diameters. A full-length double zipper enables complete closure when hand held or on a tripod. The E-702 fits all types of pro D/SLR cameras with or without booster or grip.

Sling Backpacks 3N-10/20/30

Kata's new 3N1 sling backpacks morph from sling to backpack and back again providing ultimate freedom of use. These unique bags hold and protect your camera equipment as well as everyday accessories while allowing you quick draw for shooting. Three varying sizes take equipment ranging from a small kit to a large kit for extended shooting.

In sling position, the bag easily swings around from back to front to achieve quick draw access to your main camera and backup lenses as well as fast and easy changing of lenses. In backpack position and "X" position you can comfortably carry your equipment for long distance walking when needed. The included chest belt and balancing hip strap helps take the load of your heavy equipment off your shoulders.

Digital Rucksacks DR-465/467

KATA's DPS digital Rucksacks, feature unique TST RIB structural protection for a D/SLR with mounted lens, 3-4 lenses, flash etc. & personal gear. The main compartment holds a D/SLR in top grip position while the modular divider system will separate, organize and protect lenses, flash units and other accessories. By removing this insert, the rucksack easily converts to an everyday pack when not shooting. The large top compartment will hold personal gear or additional equipment and accessories. The DR-467 features a large protective laptop compartment for working on the go. When carrying, a chest belt and balancing waist strap are available for ultimate comfort. Both rucksacks are also compatible with the Kata Insertrolley if wheel along transportation is needed.

Digital Flap Pouches DF-402/404-X

Kata's "X" Digital Flap Pouches, part of the Digital Photo Series (DPS), are point and shoot pouches which feature unique TST Rib protection for your camera. Accessories such as memory cards can be stored in the designated extra pocket. The special belts loops on the back of the pouch allow secure connection for quick draw access of your camera either vertically or horizontally. These loops also enable you to connect to the strap of a backpack to always have your camera up front and easy to access. An attached karabiner allows you to clip the pouch anywhere you like it while the included shoulder strap provides an additional carrying option.

Laptop Cases LC-115/117

The LC Laptop Cases are slimly designed to hold and protect most 15" or 17" laptops plus your essentials. When on-the-go use this case to pack lightly and forego the bulk of a large and heavy laptop case. Though light and soft these cases feature Kata's unique TST RIB structural protection that will shield your electronics from accidental damage. The main compartment is divided to hold your laptop and documents separately and the easy access top opening will allow you to quickly pull out your notebook to start working. Carrying options include a padded shoulder strap, and on the rear of the case straps for trolley connection.

Ergo-Tech Camera+ Collection

Introducing **ERGO-TECH**

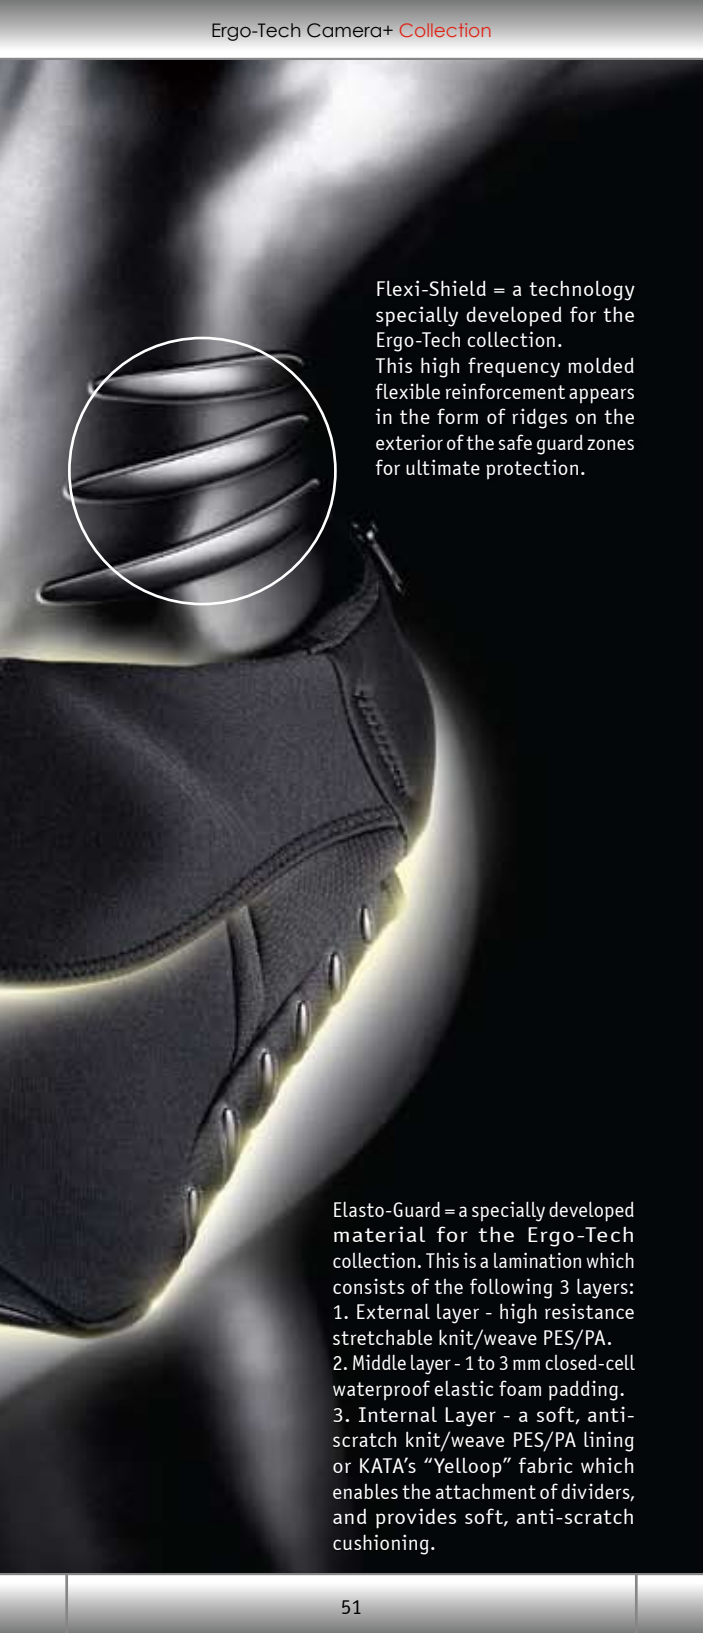

Revolutionary consumer bag line

Ergo-Tech = a seamless extension to your body. Kata's collection of consumer bags introduces new organic carrying solutions for your personal day to day gear and your CAMERA+. A unique combination of cutting edge technologies (Flexi-Shield), materials (Elasto-Guard) and design have been joined together to create this range of flexible dynamic bags that will adjust to the ever changing shapes and movements of your body, while also able to shift shape in order to fit the variable equipment within. Designated safe guard zones feature internal modular padded divisions and external Flexi-Shield reinforcement for ultimate protection.

Flexi-Shield = a technology specially developed for the Ergo-Tech collection.

This high frequency molded flexible reinforcement appears in the form of ridges on the exterior of the safe guard zones for ultimate protection.

Elasto-Guard = a specially developed material for the Ergo-Tech collection. This is a lamination which consists of the following 3 layers:

1. External layer - high resistance stretchable knit/weave PES/PA.
2. Middle layer - 1 to 3 mm closed-cell waterproof elastic foam padding.
3. Internal Layer - a soft, anti-scratch knit/weave PES/PA lining or KATA's "Yelloop" fabric which enables the attachment of dividers, and provides soft, anti-scratch cushioning.

sensitivity V

Sensitivity V Backpack is the perfect personal daypack that can be used to carry and protect a 12" Laptop and Digicam or SLR + MP3/MP4 player + PDA + Phone and accessories.

Two U shaped front flaps allow access to the top and bottom compartments separately while each functioning as a flexible pocket. The main compartment is divided in two with a zippered division that can be opened to create one large space, and the ample internal and external pockets will store all your personal gear in addition to your photographic equipment.

Name: sensitivity V Order code: KT A44V

sensitivity V	External Max. Size		Internal Main Compartment	
Length	10.6"	27 cm	11.8"	30 cm
Width	4.7"	12 cm	5.9"	15 cm
Height	13.8"	35 cm	17.7"	45 cm
Weight	2.23 Lbs		1.01 Kg	

Can hold:

prism U

The Prism U Backpack is designed to meet the requirements of a daypack but will also accommodate a 12" Laptop and a Digicam or SLR + MP3/MP4 player + PDA + Phone and accessories. The main compartment is divided in two with a zippered division that can be undone to create one large space. In the upper section there are Elasto-Guard sleeves to secure and protect delicate equipment (if not in use these just fold away to allow for other gear) and an internal organizer panel for personal effects that includes a small roaming media pocket. In the lower section there

Weight	0.92 Lbs		0.42 Kg	

Can hold:

focus N/Q

The Focus Shoulder Bags are designed for day to day use and can also carry a Digicam or SLR + MP3/MP4 + PDA + Phone and accessories.

The main compartment features Elasto-Guard sleeves to secure and protect delicate equipment (if not in use these just fold away to allow for other gear). Flexi-Shield reinforcement is featured on both sides of the bag. Full top flap opening accesses the main compartment and the front zip pocket, while a concealed phone pouch is integrated into the shoulder strap for quick access. A special adjustable strap system will easily stow away the excess strap in a designated cover-all sleeve.

Can hold:

reflex C

Reflex C Camera Strap is made of the Elasto-Guard flexible material to provide a well padded, optimal weight balanced anchor for carrying your camera.

Two small zip pouches on each end will store backup media cards or batteries.

Can hold:   

Name: reflex C Order Code: KT A91C

reflex C	Max Length	57.1" 145 cm
	Weight	0.22 lbs 0.1 kg

reflex E

The Reflex E camera strap is made from durable Elasto-Guard material to provide a dry, well padded strap which balances the weight evenly for your camera equipment. Two small pouches on each end of the strap will store backup media cards or batteries. New rings on end of strap allow for fast connection to either the strap or backpack connection.

Can hold:   

Name: reflex E Order Code: KT A91D

reflex E	Max Length	57.1" 145 cm
	Weight	0.22 lbs 0.1 kg

Macro KB/KS

Macro KS Mini Shoulder Bag, and Macro KB Mini Belt Bag, are similar in all design features but differ in carrying methods: Macro KS comes with a shoulder strap while Macro KB comes with a waist belt connector (belt not included). Both fit a Digicam + MP3 / MP4 + PDA + Phone and accessories. Their top-looped-flap accesses the main compartment and the front pocket features Flexi-Shield reinforcement to secure the unique closure of the pouch by anchoring the loop of the top flap. Two side zip pockets can store small accessories.

Can hold:

Weight	5.3 Lbs		2.4 Kg	

Name:Hexabag-3 Order code: KT VE-110-3

Hexabag-3	External Max. Size		Internal Main Compartment	
Length	45.8"	112 cm	43.5"	110 cm
Width	13.7"	35 cm	13"	33 cm
Height	11.8"	30 cm	11"	28 cm
Weight	8.6 Lbs		3.9 Kg	

Palms 1/2/3

PALMS are a functional breakthrough in the design of soft, reinforced cases. They are available in three sizes to permit the carrying of a large variety of accessories and sensitive equipment primarily used for lighting kits: Lights and power supply in the main compartment, 4 stands in the side pockets. Based on the architectural principle of the arch, the PALMS provide the equipment with complete protection. An aluminum pole handle allows for balanced carrying even when the center of gravity changes.

The PALMS are supplied with Insertrolley and shoulder strap and the interior can be customized with Modi-Vers divider system.

Palms-1 with Insertrolley

Name: Palms-1 Order code: KT VC-251-1

Palms-1	External Max. Size		Internal Main Compartment	
Length	33.5"	85 cm	30.7"	78 cm
Width	16.5"	42 cm	7.4"	19 cm
Height	11.0"	28 cm	8.3"	21 cm
Weight	13.6 Lbs		6 Kg	

Palms-2 with APSS (not included)

Name: Palms-2 Order code: KT VC-251-2

Palms-2	External Max. Size		Internal Main Compartment	
Length	39.4"	100 cm	36.6"	93 cm
Width	16.9"	43 cm	7.9"	20 cm
Height	11.4"	29 cm	8.7"	22 cm
Weight	15.4 Lbs		7 Kg	

Name: Palms-3 Order code: KT VC-251-3

NEW Palms-3	External Max. Size		Internal Main Compartment	
Length	44.8"	114 cm	44.0"	112 cm
Width	20.4"	52 cm	11.8"	30 cm
Height	11.0"	28 cm	8.7"	22 cm
Weight	16.7 Lbs		7.6 Kg	

Insertrolley

The simple yet ingenious Insertrolley System can be used with many Kata compatible cases. Simply slide the trolley through the designated sleeve on the cases for secure and easy mobility.

Name: Insertrolley Order code: KT VG-DTS

Insertrolley	External Max. Size		Internal Main Compartment	
Length	11.8"	30 cm	17.3"	44 cm
Width	3.9"	10 cm	14.2"	36 cm
Height	18.9"	48 cm	41.3"	105 cm
Weight	4 Lbs		1.8 Kg	

Apss DH-N

APSS (Advanced Padded Shoulder Strap), KATA's first Patented Shoulder strap is thermo molded to the optimal shape and softness for your shoulder.

Name: APSS-DH-N Order code: KT VG-602-DH-N

APSS-DH-N	External Max. size	
External Length	63"	160 cm

Gecko Strap

The Gecko Shoulder Strap is a comfortable, light and ergonomic carrying solution for your bag which ensures secure positioning while on the go. Made from a special lightweight yet extremely durable foam, the GSS holds your camera bag snug and effortlessly on your shoulder.

Name: GSS-DH Order code: KT VG-604-DH

GSS-DH		
External Length	48.4"	123 cm
Max Carrying weight	44 Lbs	20 Kg
Weight	0.5 Lbs	0.23 Kg
