Protective Carrying Solutions
www.kata-bags.com

Introducing **KATA**

KATA designs, develops, and manufactures quality, state-of-the-art protection solutions and carrying systems. KATA's products are designed around the human frame. It's not enough that the equipment fits the case, the case must also fit the user! In 1983, two friends, members of an elite military unit, began exchanging ideas about how backpacks and military equipment cases could be made more modular and ergonomic.

Based on their own field experience, they went on to design a line of combat-ready gear. They named their company **KATA**. In 2005 Kata joined the Vitec Group and under the Photographic Division the company has been expanding and flourishing. **For many years KATA has been creating high-end products for professionals around the world.** KATA Design HQ and part of the manufacturing facilities are based in Jerusalem, Israel.

KATA established its reputation by outfitting Protection and Security Special Forces with auxiliary cases, utility & protective vests and backpacks. Tough, durable, yet remarkably lightweight, KATA products are constructed to withstand rough treatment and harsh conditions over long periods.

Protection and Security

Secretary-General of the UN,
Mr. Kofi Annan wearing Kata
protective vest.

For the **Professional Video Industry** KATA has created a completely innovative line of products for field production (ENG & EFP). The line is distributed and supported worldwide by a network of dealers and distributors. In over 40 countries, we are there to support you wherever your work may take you.

Pro Video

Michael Schumacher, Formula
1 winner 2002, filmed by a news
crew using Kata's professional
Camera Glove.

KATA has provided an outsourcing service to **Hi-tech Industries** that manufacture sensitive equipment for field operation. KATA is involved from the research to the development and design stage through production. A prominent example of such an enterprise is the KATA - MANFROTTO collaboration which is responsible for the entire line of Manfrotto bags worldwide.

High Tech Industry

Kata joined forces with Manfrotto
to become the sole designer and
manufacture of all their Camera
Support Carrying Solutions.

In 2004, **KATA** launched the Global Digital Collection (GDC) for the Professional Digital Photographer and Videographer. The collection includes carrying solutions specifically designed for delicate digital equipment incorporating KATA's latest development - the unique TST (Thermo-Shield-Technology).

carrying an R-103.

Five Year Warranty

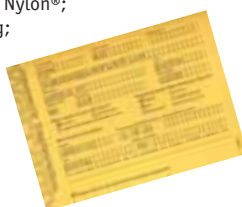

Kata warrants each product to be free of defects in material and workmanship for a period of 5 years from the date of purchase.

We are able to provide you with this warranty because:

Each of our products is **meticulously handcrafted** for durability:
Internal bindings cover the fabric-ends and outside seams are double folded to eliminate unraveling. Carrying handles are sewn from the bottom of the bag, for the greatest possible strength. Our silent YKK zippers are double seamed and usually sewn on the inside of the fabric to hold them fast.

We use the highest quality materials:

DuPont® Cordura®;
Water-repellent and Polyurethane coated Super Nylon®;
High tenacity Polypropylene and Nylon webbing;
Cross-linked Polyethylene-foams;
Silent action Auto-Recover YKK® zippers;
ITW® and Duraflex® buckles;

ISO-9000

KATA complies with the rigorous requirements of ISO-9000 for quality management system. The ISO (International Organization for Standards) is a worldwide federation of national standards committees from over 90 countries.

PRO VIDEO COLLECTION

Designed specifically and ergonomically around the user, The Pro Video collection provides you with the perfect balance of light weight and protection.

Crafted and Perfected over a decade working with leading industry professionals, the Pro Video collection provides some of the best ergonomic comprehensive working solutions available today. State-of-the-art protective carrying and working solutions for Pro HD, ENG, EFP, HDV, DV & Mini-DV.

Camcorder bags and backpacks
Camera Gloves and DV/HDV Guards
Rain Covers
Audio Solutions
Monitor and Editing bags
Lighting cases and more...

Kata's extensive test team keeps in tune with industry professionals around the world to research and identify the needs of today's modern photography industry. To meet these demands, we design, develop and update our products to meet the latest technology and user requirements.

PROTECTING SOLUTIONS >>

Laptop bags - Field production kits

DV/HDV Guard - No compromises

Backpacks - for outdoor or urban adventures

Rain Covers - Don't let the weather stop you

Torso Pack, Waist Pack & Rucksack - Mix and match for your perfect solution

DPB

Shoulder straps attach to the bag via this rugged yet light weight buckle, which accepts either a quick-release hook or the strap itself. Either option ensures that the strap will cross the shoulder at the optimal ergonomic angle to provide excellent comfort and stability.

Insertrolley

Revolutionary Modular Trolley System with extendable wheels to better stabilize large cases (Patent Pend), page 52.

EPH

The Ergonomic Photo System is a modular system that allows you to attach 1-3 KATA cases together, page 26.

PROTECTING SOLUTIONS

PROTECTION & LIGHT-WEIGHT PERFECTLY BALANCED

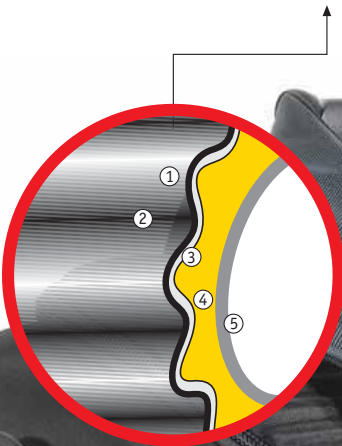

Our mission is to provide the maximum protection with the most ergonomic, lightweight design possible. We want our products to work with you and help you do your job in the best possible way.

TST

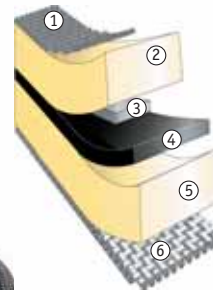

TST - Thermo-Shield-Technology provides state-of-the-art protection for digital equipment while creating an extremely light product.

1. Thermo-formed "rib-shape" construction (Patent Pend.)
2. Mil-Std water, dust and abrasion resistant Super Nylon®.
3. Shock protective insulated Cross-linked, closed cell PE+EVA shield.
4. Vibration reducing Air-PU for internal padding and cushioning.
5. Anti-scratch Yelloop® lining enables divider attachment, and location of small objects in poor lighting conditions.

Six Layers of Protection

We surround your equipment with the most protection possible, while still maintaining a lightweight design.

1. Polyester 600D
2. High-Density Polyethylene Foam
3. Aluminum Stave
4. Polypropylene Panel
5. Soft Polyurethane Foam
6. Cordura® 1000

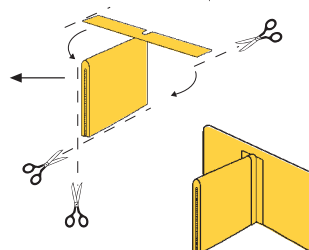

Toblerone

Made from synthetic thermo-rubber, this uniquely designed feature absorbs shocks and protects the case from abrasion, dirt, mud and standing water.

Modi-Vers System

Kata products feature 'Yelloop' Hook & Loop interiors with included dividers or Modi-Vers strips that allow you to create compartments inside the cases to meet your exact set up and protection requirements. You can easily cut and configure the size and shape of the dividers. No glue, knives or special skills needed.

Element Protection

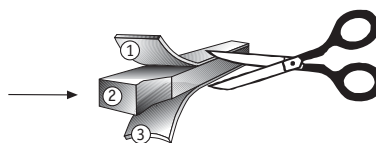

Camera Gloves, Guards and Rain Covers

KATA's Camera Gloves, DV/HDV Guards and Rain Covers provide you with every day protection of your gear no matter what climate or working conditions you may find yourself in.

KATA gloves are made of a specially engineered lamination:

1. External layer of nylon elastic knit, non-abrasive to your skin.
2. Middle layer of shock resistant, advanced closed cell foam prevents overheating of your camera.
3. Internal knit layer protects the camera body.

This non-fray lamination enables you to cut additional slots to fit your exact working configuration.

Reversible Elements Cover

An emergency reversible Elements Cover is included in many of our products to protect your case and equipment in inclement weather: black side out in rain or snow, and in sun reverse to silver for heat reflection.

GDC COLLECTION

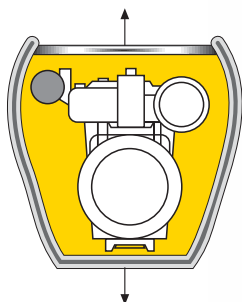

COMPACT CAMCORDER CASES

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

The CCC Camera Case Family is designed to carry and protect pro camcorders with battery & lens installed. Engineered to embody perfect balance, the CCC's are very light weight yet highly protective cases. The streamlined ergonomic shape keeps the center of gravity close to your body, and eases the burden when carrying. The Insertrolley can also be added as wheel along transportation. The double flap top opening ensures quick top handle grip access to the camcorder, which allows a mini light to stay installed during transport as the flaps will zip around it. The entire content is protected by water tight zippers. Ultimate protection for the delicate area of the viewfinder, lens and mic is provided in the structural shape which expands to cocoon these components and the aluminium stave which is embedded in the top flap. Included dividers and support cushions enable customization of the space to meet specific needs. Additional storage is available in ample internal and external pockets.

*Aluminium stave reinforces top flap to protect viewfinder and on-camera mic.

Ergonomically shaped curved contour and six layers of protection safeguard the camera.

Insertrolley connection option allows you to choose alternative transport modes.

APSS - Advanced Padded Shoulder Strap NSS - Non Slip Shoulder Strap

On one shoulder or across the chest, the double-sided APSS & NSS have a unique curved shape that prevents them from digging into the wearer's neck while offering optimal weight distribution.

NSS

APSS

Camera Shoulder Strap with Double Camera Clip (DCC)
(Sold Separately)

Interlocking Click handle.

Water tight sealed zippers.

Sturdy transport front grip.

Padded external pockets

Dual zipper quick opening & top handle grip access to camcorder.

Customize the interior to fit your needs using dividers to place your camcorder in optimal position, and support cushions under viewfinder or lens.

THE MCC-2A

The MCC-2A is designed to hold a large pro camcorder with battery & lens installed. Additional storage is available in the 2 large padded pockets front and rear, 1 full length side pocket and 1 small flat pockets on the reverse side. Inside the side pocket, a designated tripod plate pouch can be found as well as a small set-up card pocket is integrated in the top flap.

Name: MCC-2A Order Code: KT VA-222-2A

NEW MCC-22	External Max. Size		Internal Main Compartment	
Length	37.0"	94 cm	28.3"	72 cm
Width	13.7"	35 cm	11.4-7.4"	29-19 cm
Height	13.7"	35 cm	12.6-9.8"	32-25 cm
Weight		8.1 lbs	3.7 kg	

THE CCC-1A

The CCC-1A is designed to hold medium to large pro camcorders with battery & lens installed. Additional storage is available in the 1 flat internal pocket, 2 large padded pockets front and rear, and 2 flat pockets along the side. A Designated tripod plate pouch can be found inside the main compartment and a small set-up card pocket is integrated in the top flap.

Name: CCC-1A Order Code: KT VA-002-1A

NEW CCC-1	External Max. Size		Internal Main Compartment	
Length	34.2"	87 cm	27.2"	69 cm
Width	13.4"	34 cm	11.4-7.4"	29-19 cm
Height	12.6"	32 cm	11-9.8"	28-25 cm
Weight		6.6 lbs	3 kg	

THE CCC-10A

The CCC-10A is designed to hold a medium pro camcorder with battery & lens installed. Additional storage is available in the 2 large padded pockets front and rear, 1 flat pocket along the side and a small set-up card pocket that is integrated in the top flap.

Name: CCC-10A Order Code: KT VA-002-10A

NEW CCC-10	External Max. Size		Internal Main Compartment	
Length	29.9"	76 cm	22.4"	57 cm
Width	11.8"	30 cm	10.6-6.7"	27-17 cm
Height	10.6"	27 cm	10.2"	26 cm
Weight		5.5 lbs	2.5 kg	

THE HD-CC-3

The HD-CC-3 or Maxi HD Camera Case features ultra peripheral TST protection for the delicate and expensive equipment inside with an emphasis on the viewfinder and microphone area. An extra long external padded zippered pocket located on the right side of the bag can be divided into 2 or 3 separate compartments to meet your exact accessory needs, while the adjustable tripod plate pocket can be situated wherever most convenient. The case includes shock buffers and Modi-Vers dividers that allow the user to configure the main compartment according to personal preferences. 4 more designated pockets will store tools and personal effects while providing quick and easy access.

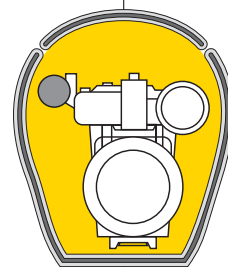

Name: HD-CC-3 Order Code: KT VA-255-3

HD-CC-3	External Max. Size		Internal Main Compartment	
Length	36.2"	92 cm	29.1"	74 cm
Width	13.3"	34 cm	10.2-7"	26-18 cm
Height	16.5"	42 cm	14.1-9.4"	36-24 cm
Weight	12.3 lbs		5.6 kg	

Curved Thermo Shield reinforces top flap to protect viewfinder and on-camera mic.

Ergonomically shaped curved contour and six layers of protection safeguard the camera

THE TCCT

The TCCT meets the strict new airline regulations for carry-on bag size*. And its modularity means that when you land it adapts to hold your fully assembled camera in everyday use. It holds the camera with the battery removed; in some cases the viewfinder must be removed and with extremely large cameras the lens must be removed as well. The disassembled parts go into padded pouches in the case.

To expand the case to its working position, the TCCT has a compartment that lengthens the case and a side compartment that makes it wider. The case and the extended compartments are padded and rigid at the same time, to protect their delicate contents. The detachable trolley (included) makes it easier to transport the bag through the airport. In narrow check posts (security areas), the trolley can be removed in order to fit Airline Regulations Measuring Box.

*Due to constantly changing airline regulations, please check with your carrier prior to departure.

On Board

These bags meet the strict new airline regulations for carry-on luggage size.

Due to constantly changing airline regulations, please check with your carrier prior to departure.

Name: TCCT Order Code: KT VA-014

TCCT	External Max. Size		Internal Main Compartment	
Length	25-31"	64-79 cm	22.4-28.4"	57-74 cm

Width	12.2"	31 cm	8.3"	21 cm
Height	12.6"	32 cm	10.6"	27 cm
Weight		5.5 lbs	2.5 kg	

Full opening for easy access to large camera configurations

2 sets of Modi-Vers to allow for partitioning according to your preference

Padded mesh pockets for flat items like filters, PDA etc.

Fits a variety of laptops with mouse, cables etc.

Two side doors open a long padded back compartment where you can store a small tripod or many accessories organized inside the two included drawers.

Service compartment can be divided and organized to fit all extra gear like batteries, charger, cables, lenses and many more.

MC-61 with Insertrolley

SHELL-03

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

Name: Shell-03 Order Code: KT VA-2003

Shell-03	External Max. Size		Internal Main Compartment	
Length	17.3"	44 cm	16.5"	42 cm
Width	10.6"	27 cm	8.7"	22 cm
Height	9.1"	23 cm	7.9"	20 cm
Weight		2.0 lbs	0.9 kg	

The Shell-03 has a unique TST Clam Shell design which offers ultra protection. Using the Modi-Vers divider system, the case can easily be adjusted to fit DV camcorders such as the Sony V1, FX1, Panasonic DVX100 or Canon XH A1, G1 & similar (check bag chooser) with related accessories.

An internal padded mesh pocket provides extra storage possibilities without compromising the protection of the camera. KATA's patented "Click" handle allows for quick closure as well as for comfortable carrying. The fully padded ergonomic shoulder strap (BSS) can be attached to the DPB directly or by its snap hooks, creating an optimal User-Case-Strap angle.

CAMCORDER CASES

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

KATA's CC Compact Cases feature TST rugged protection to provide the ultimate safeguard for the delicate equipment within. A spacious main compartment with modular internal division will accommodate camera and accessory set-up while the full length external padded pocket will provide additional storage space. If additional division is necessary, KATA's Modi-Vers Kits can be purchased. The lid is secured by a wide "hook & loop" fastener and a side release buckle. One pull allows for a quick full opening of the parallel zipper set. BSS Shoulder Strap is included as well as a padded Mesh-Grip handle. Except for the CC-190 all the cases are Insertrolley compatible.

Each bag (except for the CC-190)
can easily be attached to the
KATA Insertrolley or connected to most
luggage trolleys for easy wheel along transport.
Even when connected,
the functionality and accessibility
are not compromised.

Each bag is designed to provide a
compact fit for specific camcorder
models, but can also accommodate a
smaller camcorder with mounted
accessories such as external mic or
mattnbox.

CC-195

CC-193

CC-195

Modular dividers allow set up for customization

Full length external padded pocket

Sturdy padded carrying handle.

Dual zipper puller with grip
handle for quick and easy access
to main compartment.

Front and rear rigid TST protection

CC-190

CC-190 fits small Mini-DV camcorders up to Sony HC-1 & similar. The case features rear belt loop connectors and is not Insertrolley compatible.

Name: CC-190 Order Code: KT CC-190

CC-190	External Max. Size		Internal Main Compartment	
Length	11.8"	28 cm	10.2"	26 cm
Width	6.2"	16 cm	3.9"	10 cm
Height	6.2"	16 cm	4.7"	12 cm
Weight	1.1 lbs		0.5 kg	

CC-191

CC-191 fits up to a Canon GL2/XM2, Panasonic DVC30, JVC HD1, Sony A1 & similar . A rear sleeve allows easy connection of the bag to luggage or KATA Insertrolley.

Name: CC-191 Order Code: KT CC-191

CC-191	External Max. Size		Internal Main Compartment	
Length	16.5"	42 cm	15.7"	40 cm
Width	8.6"	22 cm	7.8"	20 cm
Height	8.6"	22 cm	7.8"	20 cm
Weight	5.07 lbs		2.3 kg	

CC-193

CC-193 fits up to a Canon XH A1, G1, Sony Z1, V1, Panasonic HVX200 & similar. A rear sleeve allows easy connection of the bag to luggage or KATA Insertrolley.

Name: CC-193 Order Code: KT CC-193

CC-193	External Max. Size		Internal Main Compartment	
Length	22.0"	56 cm	21.2"	54 cm
Width	10.2"	26 cm	8.6"	22 cm
Height	11.0"	28 cm	10.2"	26 cm
Weight	3.2 lbs		1.45 kg	

CC-195

CC-195 fits standard non-accessorized Canon XL H1 or JVC GY HD100, or smaller HDV camcorders with mounted matbox. A rear sleeve allows easy connection of the bag to luggage or KATA Insertrolley.

Name: CC-195 Order Code: KT CC-195

CC-195	External Max. Size		Internal Main Compartment	
Length	23.6"	60 cm	22.8"	58 cm
Width	12.6"	32 cm	11.0"	28 cm
Height	11.8"	30cm	11.0"	28 cm
Weight	4.85 lbs		2.2 kg	

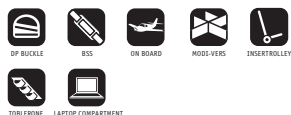

The CC-195 features a reinforced modular bottom panel and a unique viewfinder and microphone circumferential protection in the form of a removable Reinforced Aluminum Frame (RAF).

ORGANIZER CASES

OC-82 / OC-84 / More OC Cases on pages 44-45

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

Name: OC-84 Order Code: KT OC-84

OC-84	External Max. Size		Internal Main Compartment	
Length	19.6"	50 cm	18.1"	46 cm
Width	15.7"	40 cm	13.3"	34 cm
Height	10.2"	26 cm	6.2"	16 cm
Weight		7.2 lbs	3.3 kg	

Name: OC-82 Order Code: KT OC-82

OC-82	External Max. Size		Internal Main Compartment	
Length	15.7"	40 cm	13.3"	34 cm
Width	11.8"	30 cm	9.8"	25 cm
Height	7.8"	20 cm	5.5"	14 cm
Weight		4.4 lbs	2.0 kg	

The OC Organizer Cases are designed to withstand harsh use in any environment. Kata's TST technology on the front of the bag and the honeycomb reinforced circumference provide ultimate protection for the gear within. The cases feature two full sized compartments: The first deep compartment is for the HDV/DV camcorder and related equipment. If additional division is necessary, a Modi-Vers Kit is included. The second shallow compartment fits a laptop or paperwork. A large external padded pocket for personal effects and an internal accessory pocket panel will allow for additional storage solutions.

2 straps are available to connect a small tripod to the exterior of the cases. Carrying options include strong padded handles, a BSS shoulder strap and Insertrolley option. The OC-82 fit cameras such as Canon GL2/XM2, Panasonic DVC30, JVC HD1 and Sony A1 with accessories, or a matbox kit. The OC-84 fit cameras such as Canon GL2/XM2, XHA1/G1, Sony A1, V1 and Panasonic DVC30, DVX100 with accessories, or a matbox kit. Insertrolley is included. The OC-84 is supplied with individual laptop case and an Insertrolley.

Kata's Waist Shoulder Bags are sturdy, TST safeguarded cases that provide rugged protection when working in harsh conditions. Ergonomically designed to allow you to "shoot from the hip" without taking the case off, a contoured shape allows for a closer center of gravity to the body, while two DP Buckles ensure correct Case-Strap-Carrier angle. An ergonomic Non-Slip Shoulder strap opens away from the body by a quick release buckle. A 3D hip pad with a removable concealed hip belt supports and helps distribute weight. (Can also be used as a connection point to Kata's Insertrolley.) Supplied with the Modi-Vers dividers to allow customized set-up of the large main compartment to suit specific needs, It features 3 large pockets, 4 flat pockets and the tying loops provide additional storage solutions. WS-604 will fit a Mini-DV camcorder such as the Canon GL2/XM2, Panasonic DVC30, Sony PDX10 & similar. WS-606 will fit an HDV/ DV camcorder such as the Sony V1, FX1, Panasonic HVX200, Canon XH A1, G1 and similar.

The PB-44, PB-46 and PB-48 are a family of comprehensive camera bags in 3 different sizes. They are designed with style, ergonomically engineered and TST protected. The main compartment holds a Handycam or Mini DV/HDV camcorder. Padded internal and external pockets will accommodate additional equipment. Carrying options include: Sturdy padded grip handle, Shoulder strap, and Back loops for a waist belt. The bags can also be connected to the KATA S-308 sling platform for an alternative carrying mode and additional storage space. When caught in the rain, use the included elements cover.

BACKPACKS

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

KATA's Backpack family is comprised of a diverse range of products, each designed to meet specific working scenarios. Though each individual backpack is a complete unique solution within itself, all the family share the practical essences:

1. Ergonomic harness system to provide correct weight distribution.
2. Hierarchical gear arrangement to ensure immediate access to the camcorder.
3. Ultimate protection perfectly balanced to maintain lightweight cases.
4. Modular set-up capability to match specific individual gear arrangements.

See product page for individual details regarding each backpack.

HB-207

1. Main compartment is set up with ample dividers that can easily be rearranged to meet your equipment requirements.
2. Multiple external pockets provide additional storage solutions for accessories or personal gear.
3. Easy handle grip access to camcorder.

BP-502

Heavy duty padded rear
laptop compartment

GRIZZLY-3

Sturdy top grip handle.

Well padded adjustable
shoulder straps.

Adjustable sternum
strap.

Lower back
cushion support.

Six point adjustable
waist belt to fit all sizes.
*Not in all models.

Dual tightening buckle with four straps which
surrounds the hip for perfect fitting.
*Not in all models.

← R-102/3 →

Camera Straps

Camera Straps are attached to the D-rings on the backpack harnesses to connect to a camera or camcorder and take the load off your neck. The 2 straps can easily be turned into a regular camera strap when needed.

Elements Cover

An emergency Elements Cover to protect your backpack and equipment in inclement weather: black side out in rain or snow, and in sun reverse to silver for heat reflection.

EPH

The Kata backpacks are part of the EPH system which means that they can be integrated with other Kata products to create a new carrying combination.

Tripod Holder

Each backpack features an individual tripod sling and connection method.

Insertrolley

The Insertrolley sleeve provides the option to make the case wheelable and easy to transport by adding the Kata trolley. (not in all models)

HB-207

Omega

Carrying system easily tucks away when needed.
*Not in all models.

GRIZZLY-3

GRIZZLY-3 is a large camera backpack which can also be used as a daily camera case. Thanks to our Modi-Vers system, this unique design fits a large range of cameras from medium cameras with many accessories to full size professional cameras with battery and lens installed. The extra padded main compartment opens horizontally for easy access to camera and accessories, even when the case is on your back. Five pockets provide various storage options while also protecting your equipment by separating it from your personal effects. GRIZZLY-3 presents four carrying options: For use on your back using the Advanced harness system, on your shoulder or across your chest using Shoulder Strap (not included), by hand using the Interlocking Handle, or wheeled with the Insertrolley System (not included). The backpack comes with a rain cover to protect the whole bag in varying weather conditions, a tripod sling connector and additional connection straps for camping gear or any other equipment.

BP-502

Thermo Shields Technology (TST) combined with reinforced plastic boards and thick closed cell padding create this lightweight, ultra protective BP-502 backpack. Specially designed to fit and give separate quick draw to camcorders such as the Canon XLH1 and downwards through to the Sony Z1, Panasonic HVX200 and similar models with laptop, many accessories and personal effects.

The main compartment features a unique internal dividing system, which allows for the diversity of equipment set-ups, while ensuring it is easily accessible. The camcorder is placed in the center thus easily available for quick draw and store via the small top opening flap. Related equipment is stored around the main piece, and secured in place by flap doors, that can be folded away when wanted. Additional internal and external pockets provide a variety of storage options for both large and small objects. The interior can be further customised using the Modi-Vers. Peripheral zipper opening enables full access to all equipment at once when packing or un-packing and when in the field working. A flat rear compartment is designed to smartly hold and protect a laptop in a padded sling and store all the related accessories.

Carrying options include:

Advanced adjustable and ergonomically designed harness system, which can be concealed, Insertrolley connection sleeve, and injected grip handle. Includes double sided elements cover, Modi-Vers strip, tripod sling and securing straps.

HB-205

KATA's HB-205 Hiker Backpack fits HDV/DV camcorders up to the Canon XH A1, G1, Sony Z1, V1 or Panasonic HVX200 & similar with accessories. The deep main compartment can be customized with the modular dividers. Two soft TST open pockets can be used for water bottles, small tripods or monopod. An assortment of external pockets all work together to provide the ultimate carrying and protecting solution for outdoor videographers. A tripod can be carried while attached either on the front or the side of the backpack. The advanced harness system is designed to allow for ultimate adjustment of all features.

backpack harness system

KATA'S EPH SYSTEM

KATA's Ergonomic Photo (EPH) System is modular and versatile. The EPH System allows you to set any configuration that you may require for the mission. You can attach 2 or 3 products that are "EPH System Compatible" into a set. For example, a waist-pack, together with a rucksack will create a big backpack. The torso-pack and a backpack will give a combination that has high storage volume and optimal balanced weight distribution. These are only two of more than 15 different possible combinations.

WAIST PACKS

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

KATA's innovative waist packs incorporate TST protection and are designed for Mini-DV sets. They are comfortably shaped to fit numerous operating scenarios:

- Frontal carrying for quick access while opening the cover away from your body.
- Rear carrying for best weight distribution.
- Carried by the thermo-rubber handle.

The main compartment can be arranged to fit your gear and the front divider enables internal and external access to the TST pocket. Two padded expandable pouches on both sides accommodate a water bottle or any other item you would like to have close at hand. Additional pockets will store all required accessories. Full protection on the main zipper and KATA's unique cover makes sure your sensitive equipment is well protected from the elements.

TORSO PACKS

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

KATA's Torso Packs are uniquely designed to keep your Mini-DV camcorder in quick-draw position, while TST protected. It enables you to carry your camcorder in front position, allowing you to always be in position to draw and shoot with extreme efficiency. The Torso Packs are the central element of KATA's EPH system which means they can be used on their own or attached to the W-92/94 Waist Packs in addition to one of the backpacks.

The unique design of the T-214 allows you to carry the bag both up front or on your back, and also change position even while on the go. The lid is secured by a wide "hook & loop" fastener and a side release buckle, and with one pull allows for a quick full opening of the parallel zipper set. This means that at all times you have top frontal access to your camcorder.

The large main compartment can be divided to store a camcorder and accessories while additional external pockets will hold your personal effects.

The T-214 fits up to a Panasonic DVX100 & similar.

T-212 fits up to a Sony HC-1, Canon GL2/XM2 & similar.

CAMERA GLOVES

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

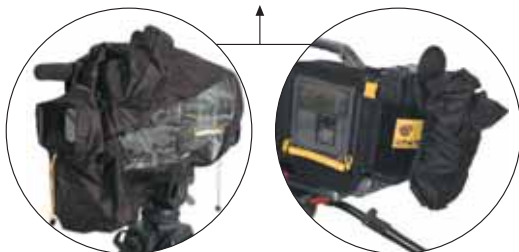

KATA's Camera Gloves have been custom tailored to fit your camera like a "glove", snug, with no loose ends, offering ultimate protection from dust, extreme elements, dirt, bumps, and scratches. Intelligent product design includes: Quick opening to access tape door, control buttons and panels. Adjustable battery wrap to accommodate all battery sizes, which allow the use of wireless systems. Silent action Auto-Recover zippers. Fashionable design which keeps in line with today's camera image.

Each camera glove is made with a specially engineered lamination:
1. External layer of nylon elastic knit, which enables ventilation and is not abrasive to your skin.
2. Middle layer of shock resistant advanced closed cell neoprene perforated foam, prevents overheating of your camera.
3. Internal knit layer protects the camera body.
This non-fray lamination enables you to cut open additional slots to fit your exact working configuration.

CG RAIN HOOD

Each CG includes a Rain Hood that comes in a pouch which can be placed on the glove's side, rear, or removed completely.

Adjustable battery wrap

Flexible Vf Sleeve

Snug "glove" fit, no loose ends

Full access to all controls

Operate with just one hand!

DV/HDV GUARDS

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

The new revolutionary KATA DV Guard is developed and designed to provide the long sought after day to day working protection for HDV camcorders. Fabricated from a special semi-rigid, closed cell foam and fabric lamination, it is thermo pressed to duplicate the exact camcorder design. The DVG will safeguard your camcorder from knocks, bumps, scratches, dust and dirt. Each is designed to tailor fit a specific popular camcorder model, allowing overall protection while maintaining all working functionality. The design matches itself to the unique contour of each camcorder model while transparent windows, dedicated cable connecting slots and quick access pull flaps to buttons and controls allow easy monitoring and operating of all functions. On the camcorder models with a set lens, a flexible lens hood can easily be folded out of the way to accommodate a matbox, while on the models with a pro viewfinder, a special flexible viewfinder sleeve is supplied. Once on, the DVG need never be taken off!

Lens hood folds back to allow matbox connection.

Use with LCD screen open
and in any position.

Windows & flap openings roll out of the way
and stay in position using hook & loop
connection points.

Easy button access flaps
and openings.

Fits various battery configurations.

Flexible viewfinder sleeve.

RAINCOVERS

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

Kata Rain Covers are each fabricated from waterproof material with crystal clear TPU panels for easy view of the camera's controls. They slip on easy and quick to protect from sudden rain showers and are secured in place by a quick pull of two drawstrings. An adjustable hood protects the lens from moisture, while the viewfinder and mic are protected by flexible sleeves with strong elastic cuffs. All KATA Rain Covers are laboratory weather tested in several extreme weather conditions so that we can design our camera covers to be prepared for any condition that might occur. Our bags are made to protect your gear down to the smallest detail while increasing your working efficiency.

Stiff polypropylene hood can be adjusted to fit a variety of lens sizes (not in all models).

Flexible sleeves with strong elastic cuffs protect viewfinder and mic.

Front and back Hook & Loop "lip seal" openings allow for the extraction of shoulder strap, mini-light or wireless antenna

Modular removable sleeves enable the extraction of shoulder strap, wireless antenna, viewfinder etc. (not in all models).

SPS Mini-light Protective Sleeve protects your mini-light in the rain. It is both modular and heat resistant (Sold separately)

RC-5" protects the viewfinder mounted on the camera. Fit with the RC-1, RC-HD3 and the RC-10. (Sold separately)

RC-1

Clear panel on the camera's control side allows the user full access from the bottom.

RC-15

momo -2-B

To find the best match for your equipment
visit [Kata online Bag Chooser](#):
www.kata-bags.com

The MOMO-2-B is designed for 8" to 10" monitors and performs as both a padded carrying case and a protective, on-the-set tool. On-the-go, it securely encloses and protects the monitor for transport to the location. The padded handles are designed with comfortable extra-long hand grips. You can pack cables or accessories in the exterior side pockets, while a pleated rear pocket holds a BP-90 battery, or other accessories. When in use, the MOMO-2-B allows instant access to the screen via a zippered front flap. Releasing a single buckle opens the rear pocket, giving you quick and easy access to the rear connectors. A hood slides out from the top of the case to shade the monitor, while the sturdy, adjustable inclining leg flips out from underneath to support the monitor at the desired viewing angle. Sliding the hood into position uncovers a mesh vent to help keep the monitor cool.

Name: MOMO-2-B Order Code: KT VB-002-2-B

MOMO-2-B	External Max. Size		Internal Main Compartment

Weight		3.5 lbs	1.6 kg	

momo-4

To find the best match for your equipment
visit [Kata online Bag Chooser](#):
www.kata-bags.com

MOMO-4 fits 8"-10" flat LCD monitors such as the Sony LMD9050 / 9030 / 9020. It securely encloses and protects the monitor for transport to the location, and when in use it opens for instant access to the screen via a front flap with hood that unfolds and is zipped into position. A sturdy, adjustable inclining leg flips out from under the MOMO-4 to support the monitor at the desired viewing angle and a rear opening provides quick access to all the cables and any power supply method in use. Additional "Toblerone" shock absorbers on the rear enable use of the case with the monitor facing upwards. Cables and accessories can be stored in the 2 exterior side pockets. The case is supplied with a BSS shoulder strap for easy carrying.

Name: MOMO-4 Order Code: KT VB-004

Name: Triporigid-2 Order Code: KT VE-105-2

Triporigid-2	External Max. Size		Internal Main Compartment	
Length	44.9"	114 cm	43.7"	111 cm
Width	10.6"	27 cm	9.8"	25 cm
Height	11.4"	29 cm	9.8"	25 cm
Weight	7.1 lbs		3.2 kg	

Triporigid offers a rigid protective carrying solution designed to fit a variety of large and heavy field tripods with different heads and are available in two varying lengths. The Omega concealed harness system allows backpack carrying while leaving your hands free. The Triporigid is reinforced with aluminum staves, Toblerone shock absorbers and it is Insertrolley compatible.

BANANA-2\3

The BANANAS are a roomy, heavy-duty production case built to hold lots of equipment, large and small. The ergonomic, contoured shape provides greater comfort when carrying heavy loads by bringing the center of gravity closer to the body. The Modi-Vers system is included to customize your contents. All Bananas are Insertrolley compatible.

Name: Banana-2 Order Code: KT VE-301-2

S-308

The S-308 is a multifunctional, shooting-gear carrier. It can be used individually, with its own expandable pocket, or as a platform for one of KATA's cases. Part of the main compartment features a connecting system to the additional case. The S-308 enables you to change the carrying position by shifting and turning it. Use the camera case in front for quick access, on the side as a simple shoulder bag or on your back for optimal weight distribution. A well-cushioned adjustable shoulder pad makes sure the S-308 is comfortable in all positions and fits sizes S to XL. Additional pockets allow you to keep valuables close to your body, in the concealed compartment, and accessories such as cell phone, PDA and wallet in the designated pouches.

S-308 With C-58

S-308 With PB-44

S-312

The S-312 incorporates TST protection and is ergonomically designed to carry a small pocket camcorder. The unique diagonal configuration offers an alternative to traditional carrying methods and fits sizes S to XL. If desired, the S-312 is able to be carried as a waist pack. The camera can be placed in either of the two central pockets. Concealed compartment holds valuables close to your body. Other ergonomically designed pockets will hold cell-phone, PDA, pen, media cards, spare batteries, keys and more.

RL-302

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

The RL-302 laptop rucksack is designed for the professionals / executives on the go. The RL-302 will organize, store and protect all your equipment as well as your traveling gear.

To meet your ever changing day to day and travel routines 2 storage options are available:

1) A padded laptop shoulder bag is integrated in the TST protected mid section of the rucksack allowing for quick & immediate removal when necessary (for instance airport security checks). This bag can be used as an independent laptop case. When removed from the rucksack the width can be easily reduced using the buckle and strap adjustment system.

2) A laptop slot is available inside the rear compartment. Large front and rear padded compartments with organizer panels will hold folders, paperwork, laptop accessories and much more. Numerous designated pockets throughout will hold all your personal effects such as mobile phone, PDA, PM3/4 player etc. Specifically designed features include a quick access pocket for Wallet and passport, and a zip-up mesh water bottle pouch. The harness system will ensure ultimate weight distribution, and when not in use will fold out of the way and allow the connection of the Insertrolley for easy roll along transportation.

F-417

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

The F-417 laptop case is designed for working with your laptop in the field. A Complete TST protected carrying solution and a perfect working station wherever you may be. Adjustable detachable hood will shade the LCD screen and elevation pads underneath the laptop provide extra cushioning and ventilation. A removable partition allows you to divide the main compartment to store a mouse, a charger or an extra drive. Numerous padded pockets and organizers will store CDs, floppy discs, PDA, cell phone, folders, papers and much more equipment. The F-417 features 3 carrying options: By hand with the patented Click handle, on your shoulder or using the Insertrolley feature.

Insertrolley

The simple yet ingenious Insertrolley System can be used with a wide variety of Kata cases. It allows you to either use the trolley separately or with several cases at once. Simply slide the trolley through the sleeve on KATA compatible cases for secure and easy mobility. You can detach the trolley when you want to store it and easily replace it if damaged. KATA's patented extendable wheel system helps to better stabilize larger cases.

Name: Insertrolley Order Code: KT VG-DTS

Modi-Vers-10/20/S10/S20

With the Modular Versatile Divider System you can create compartments inside your case to meet your exact requirements according to your equipment. The dividers can be cut with scissors to any desired size. You can then attach the newly cut divider either to another divider or the walls of the bag with special Hook & Loop connectors. KATA's Modi-Vers Kits match the bright "Yelloop" interior of our cases and are available in 4 variations:

Name: Modi-Vers Kit 20 Soft	Order Code: VG-MDK-S20	20cm x50cm
Name: Modi-Vers Kit 10 Soft	Order Code: VG-MDK-S10	10cm x50cm

Name: Modi-Vers Kit 20	Order Code: VG-MDK-20	20cm x100cm

Filter Sleeves

KATA's filter Sleeves are simple, flat translucent pouches designed to hold round filters. They come in three sizes: Up to - 43mm, Up to - 62mm, Up to - 82mm. Many KATA cases come with a Filter Sleeve connector, which is a designated strap-connector that allows you to secure as many KATA Filter Sleeves as necessary.

Name: Filter Sleeve 43	Order Code: VG-FL-43
Name: Filter Sleeve 62	Order Code: VG-FL-62
Name: Filter Sleeve 82	Order Code: VG-FL-82

APSS-DH-N/NSS-DH

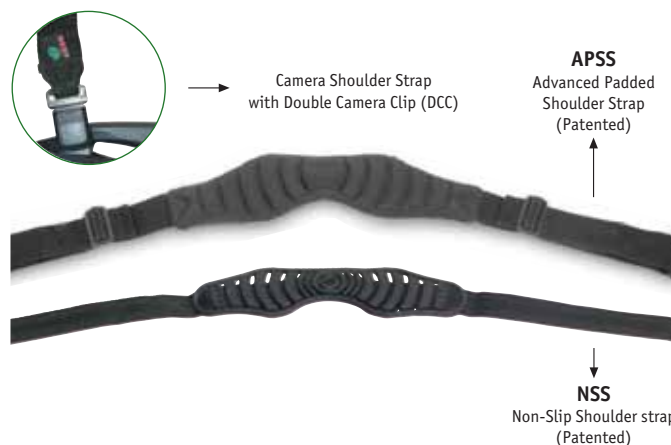

APSS (Advanced Padded Shoulder Strap), KATA's first Patented Shoulder strap has been improved to provide a higher level of performance, it is thermo molded for shape and multi-layered for ultimate softness. The special dot fabric stabilizes the strap on the shoulder. The Patented NSS (Non-Slip Shoulder strap) is shaped by injecting a specially composed thermal rubber into the mold. Wear either on one shoulder or across the chest.

BODY ARMOR

Kata is a world leader in producing protective equipment for law enforcement personnel working in hazardous zones. Anti-terror SWAT teams, soldiers as well as reporters owe their lives to the excellent protection of Kata's bullet-proof vests. To complete the peripheral protection, ballistic helmets, gas masks and overalls, are among our standard items. Since Kata always uses the most advanced materials and technology, contacting us is recommended before making a decision - after all it is a matter of life and death!

ABBA-5

This armored vest was designed to protect the media reporter when on location in high-risk situations. Optimal weight distribution and flexibility allow free movement without compromising maximum protection. The ABBA-5 offers protection against shrapnel & knives, as well as pistols and sub-machine gun. It features extra areas protected with ceramic plates which protect against high velocity bullets. Unlike other anti-bullet vests, KATA's Body Armor offers protection for the sides of the torso as well as chest and back. (*Available in four sizes: S, M, L, XL)

ABBA-5 with front ceramic plate (25 cm x 30 cm) Order Code: KT VF-980-1-FP

ABBA-5 with front & rear ceramic plate (25 cm x 30 cm) Order Code: KT VF-980-1-FRP

ABBA-1

ABBA-1 provides the same protection levels as the ABBA-5. It is designed to be worn close to the body under normal clothing, thus allowing free movement without compromising maximum protection while providing optimal weight distribution. The ABBA-1 also features full-protection areas for the chest and back and for the sides of the torso, covering those weak points often left unprotected. If worn externally the "Press" sign can be added. (*Available in four sizes: S, M, L, XL)

ABBA-1 with front ceramic plate (25 cm x 30 cm) Order Code: KT VF-902-FP

ABBA-1 with front & rear ceramic plate (25 cm x 30 cm) Order Code: KT VF-902-FRP
