

PEAK LED SOLUTIONS

McKINLEY LED FLASHLIGHT

McKINLEY: This compact high performance LED flashlight uses the latest in battery management electronics with 1 or 7 high output 5 mm LEDs. With our quality electronics we can more than double the light output of similar sized competitive single CR-123 cell battery, 5 mm LED flashlights and with greater battery life.

The McKINLEY is a wonderful EDC small pocket LED flashlight. The head is available in 6 different power levels using our exclusive 'SNOW' white LEDs. There are 3 different battery compartment styles including a double headed style and 4 different case metals.

The McKINLEY can use Lithium or Li-Ion rechargeable batteries in the popular CR-123 cell size.

Options include a momentary switch in place of the negative battery contact, (see diagram), a translucent cover to reduce light output when required, and battery compartment caps for carrying spare batteries.

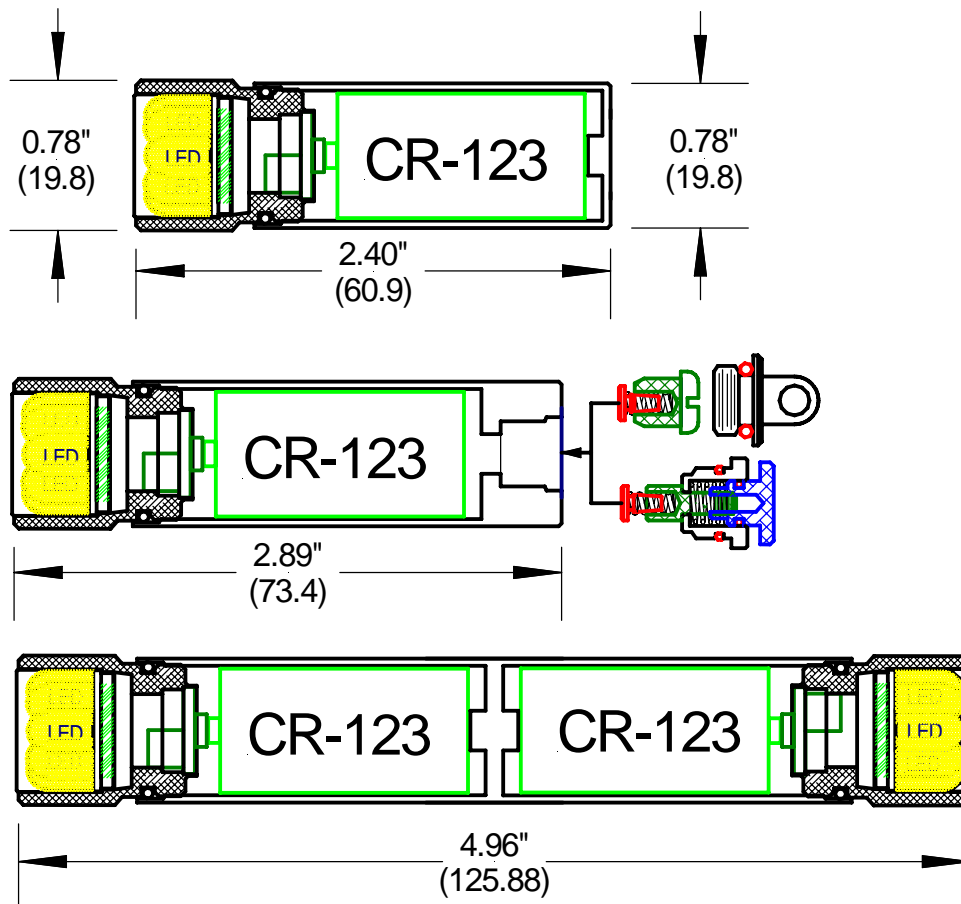

Designed and manufactured in the USA

- Machined from Aluminum, solid Brass, Stainless-Steel, or limited runs of Gold plated Brass.
