

PEAK LED SOLUTIONS

MISSION CRITICAL LED FLASHLIGHTS

Vibration ⊕ Cold ⊕ Heat ⊕ Dust ⊕ Smoke ⊕ Mud ⊕ Shock ⊕ Water

Peak LED Solutions flashlights survive where others fail. Built to thrive under the most severe conditions and get the job done. Our LED flashlights will withstand the rugged conditions of field deployment.

We build quality that will take you through the most demanding of environments. And that includes your budget requirements.

Peak LED Solutions is the source for quality high performance LED flashlights. Using a 3 watt LED and a constant current power supply, the advanced battery management electronics maintain a constant light output throughout the life of the battery.

Peak LED flashlights in the pocket style bodies are the smallest quality multiple watt output pocket sized LED flashlights on the market. They are made in different battery compartment styles and in up to 5 different case metals.

Peak flashlights can use AAA, AA, 2x AA, alkaline, lithium, NiMH rechargeable or lithium CR-123 batteries and up to a 20 mm reflector for maximum light output. An ideal combination of size, power and battery run time.

Options include a momentary switch in place of the negative battery contact, (see diagram), a translucent cover to reduce light output when required, and battery compartment caps for carrying spare batteries.

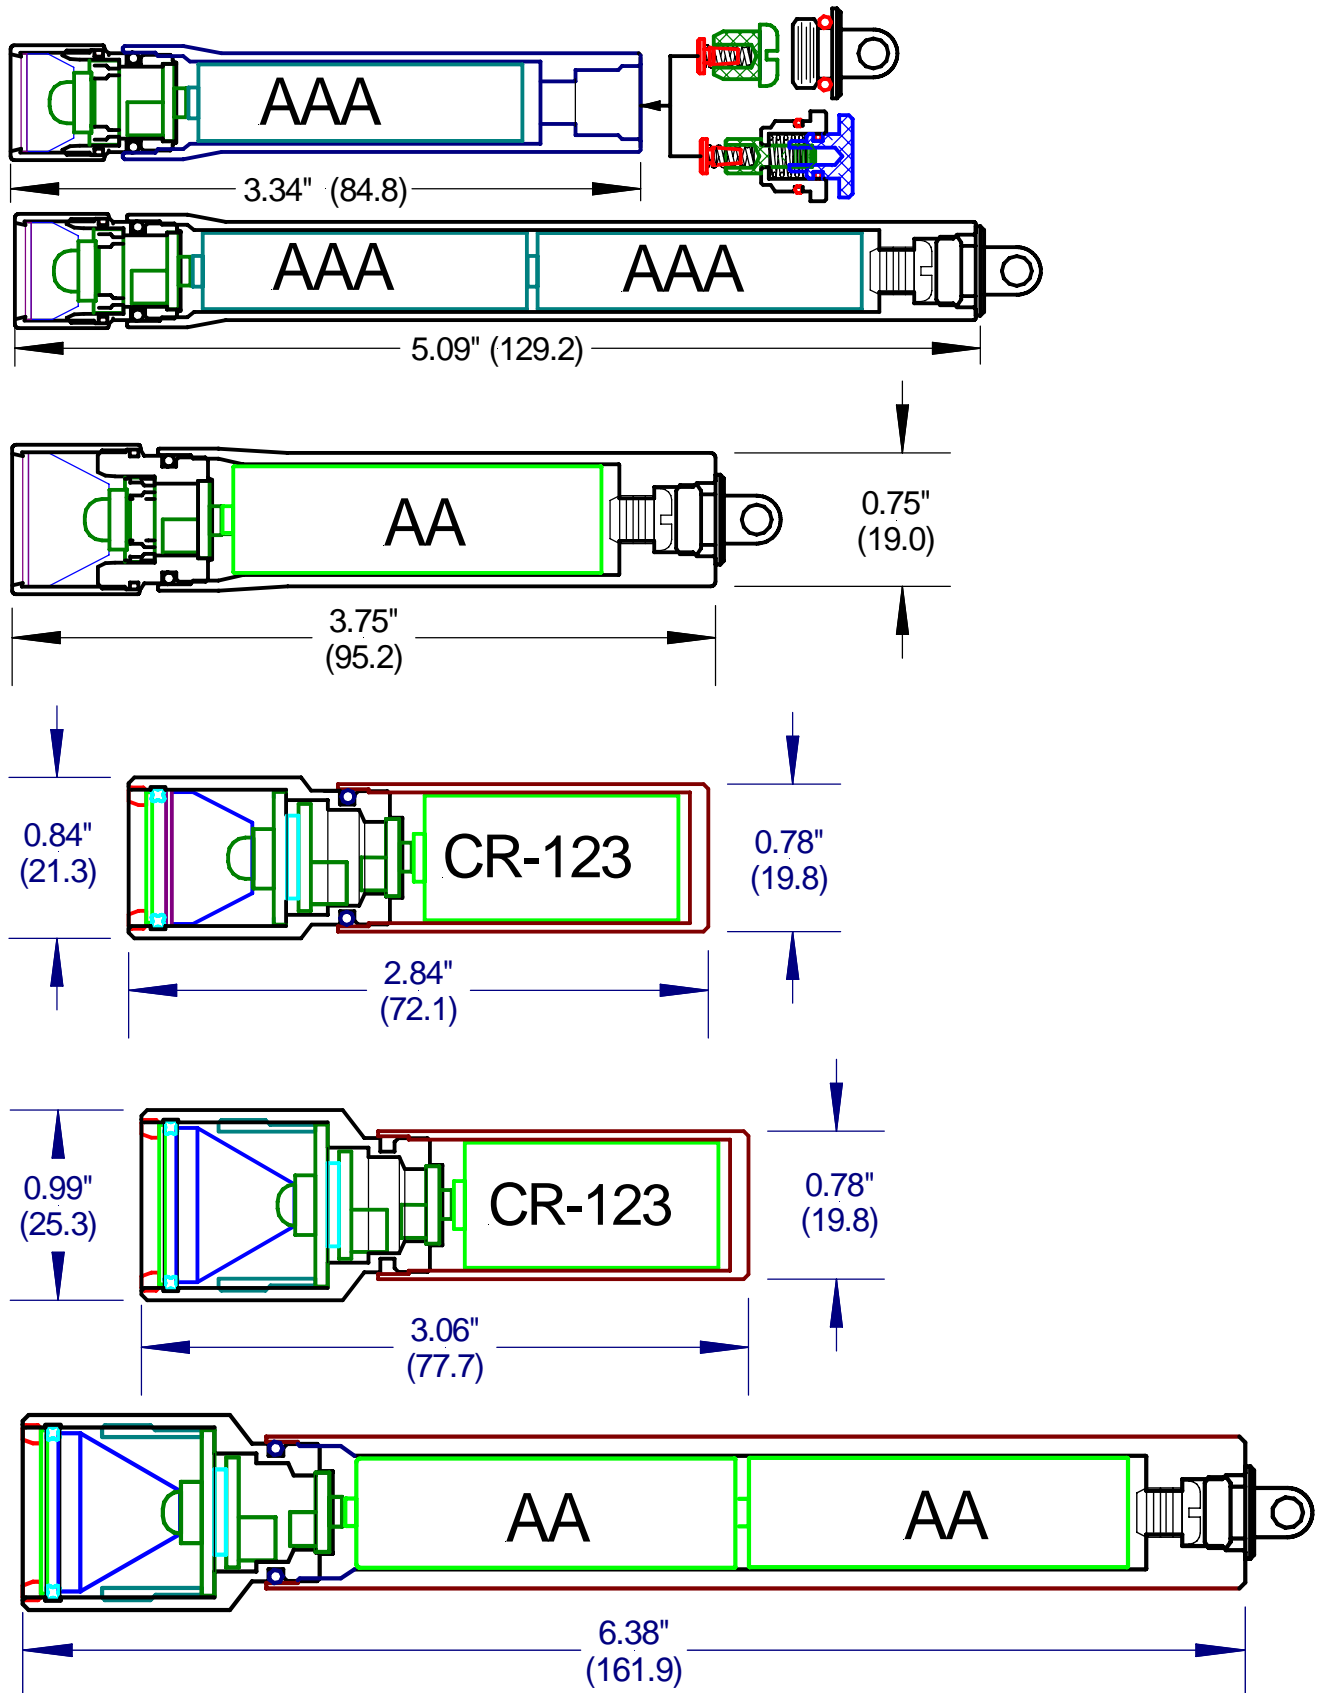

Designed and manufactured in the USA.

- Machined from Aluminum, solid Brass, Stainless-Steel, limited runs of Titanium and Gold plated Brass.
- Epoxy sealed head
- Water and Shock resistant
- Different battery sizes
- Different battery types
- Different battery compartments
- Optional 2 x AA compartments
- Double ended battery compartments
- Reliable momentary tail switch
- Custom laser engraving
- Sized for Every Day Carry
- Unequaled light output
- Best battery run time
- Unbreakable lens
- True natural white light output
- Colored high flux LEDs
- Highest efficiency electronics
- Used by Professionals

No other LED flashlights equal the quality, performance, versatility, or overall value offered by Peak LED Solutions.
