RAINIER LED FLASHLIGHT

RAINIER: This is a 3 ½ watt output high performance LED flashlight using a 3 watt LED and a direct drive 3.7 volt rechargeable Li-Ion battery.

The RAINIER in the pocket style body is the smallest quality 3 ½ watt output pocket LED flashlight on the market. There are 4 different battery compartment styles in up to 5 different case metals.

The RAINIER uses a single 3.7 volt Li-Ion battery and a 20 mm reflector for maximum light output. A CR-123 lithium battery or 2 x AA batteries are used for a reduced output of 250 Candlepower with a 12 hour run time. The RAINIER has been characterized as holding Sun Light in the palm of your hand'!

Options include a momentary switch in place of the negative battery contact, (see diagram), a translucent cone to reduce light output when required, and battery compartment caps for carrying spare batteries.

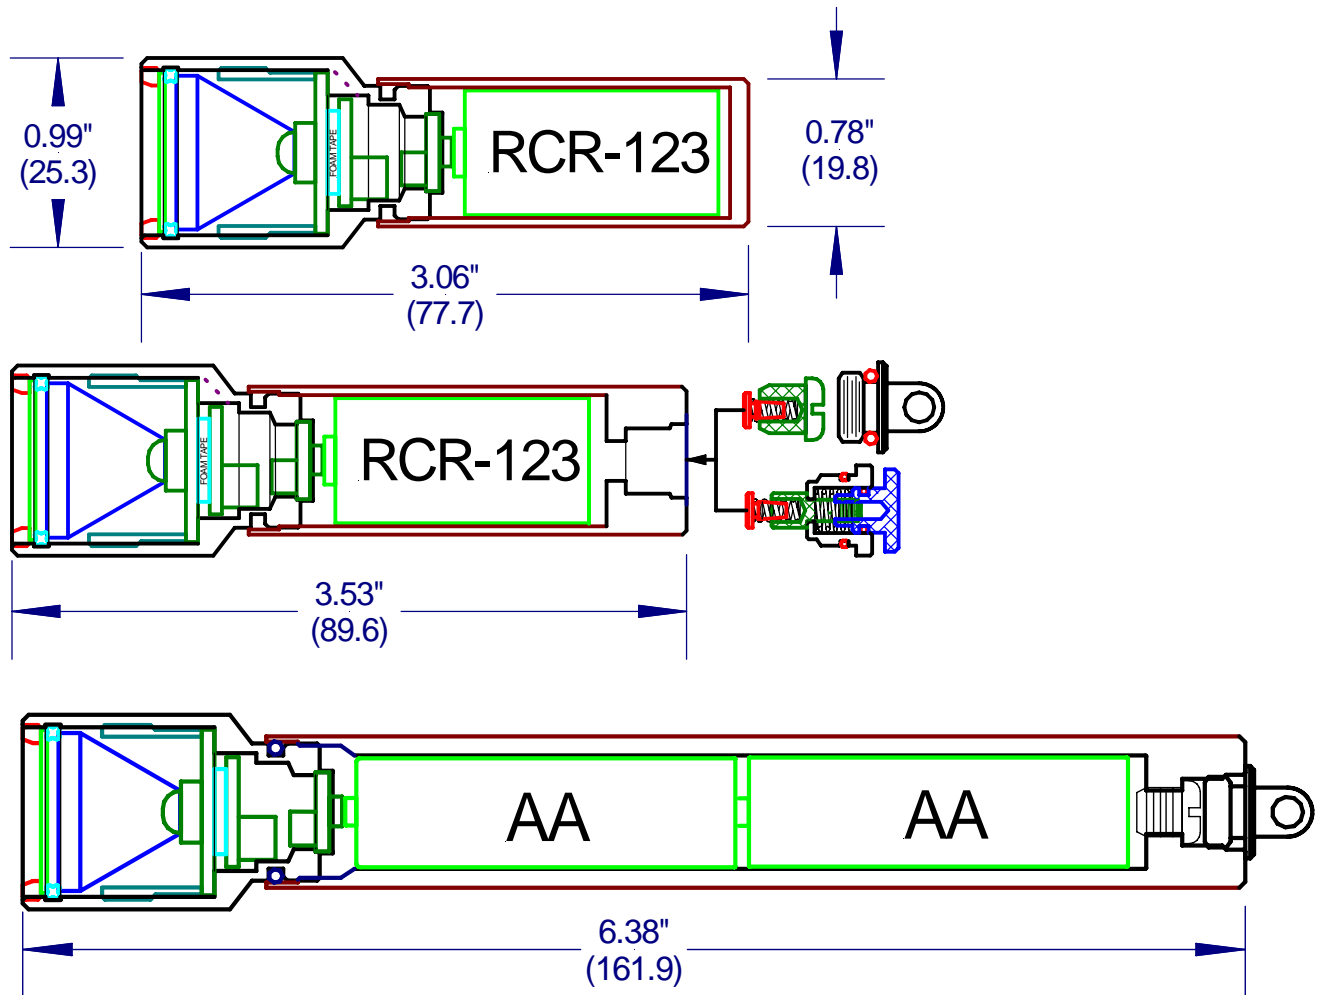

Designed and manufactured in the USA.

- Machined from Aluminum, solid Brass, Stainless-Steel, limited runs of Titanium and Gold plated Brass.
- Epoxy sealed head
- Water and Shock resistant
- 3 ½ watt power output level
- 1800 Candlepower
- 4 different battery compartments
- Optional 2 x AA compartment
- Double ended battery compartment
- Reliable momentary tail switch
- Custom laser engraving
- Sized for Every Day Carry
- Unequaled light output
- Best battery run time
- Unbreakable lens
- True natural white light output
- 3 watt high flux LED
- Highest efficiency electronics
- Used by Professionals

No other LED flashlights equal the quality, performance, versatility, or overall value offered by Peak LED Solutions.
