# "Rite in the Rain"®

## ALL-WEATHER WRITING PAPER

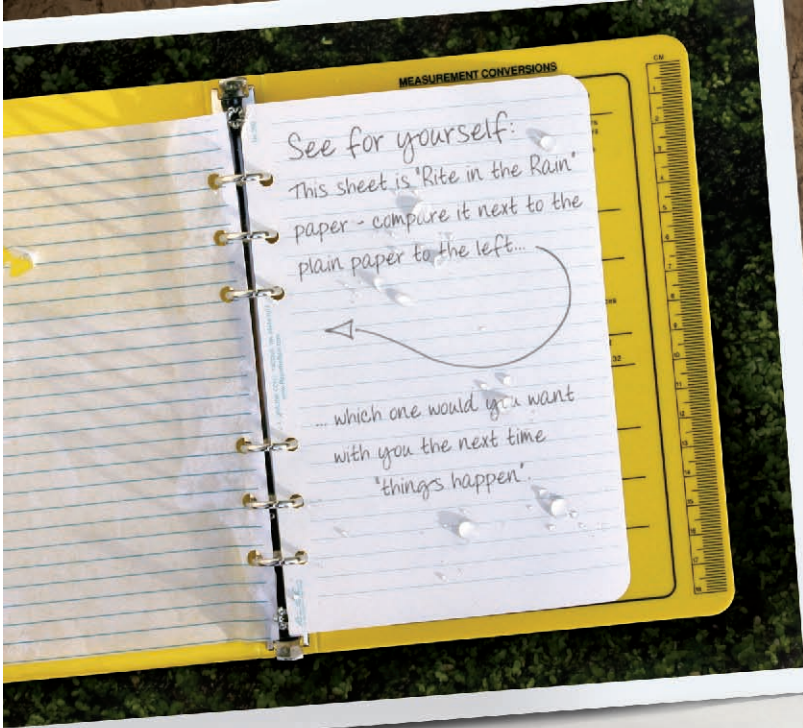

### \* **NEW Pen Holster**

Customers have asked us for years to come up with a simple way to keep a pen or pencil with their "Rite in the Rain" product.... the wait is over. See page 4.

Our new patented manufacturing process is clean and pollution free. The only by-product is steam. Made from renewable wood fiber, "Rite in the Rain" is totally recyclable just like plain paper. Also, our Polydura cover material contains post-consumer recycled material. Our team recycles everything possible so our entire facility generates just one small dumpster of trash per week!

ALL-WEATHER WRITING PAPER

## What is "Rite in the Rain"?

"Rite in the Rain" is a truly amazing patented paper created specifically for writing field notes in all weather conditions. From the torrential downpours in the Pacific Northwest to the blistering heat and humidity of a Florida summer day, "Rite in the Rain" sheds water, so users can continue to write on it, even in a downpour.

For decades the J. L. Darling Corporation has been the world leader in the production of field books, copier paper, and forms for the outdoors. It is our passion and our specialty. We make high quality, durable and functional products that serve professionals from the top of Mt. Everest to the deepest caves on the planet. We appreciate your business and will do our utmost to deserve it.

"Rite in the Rain"!*

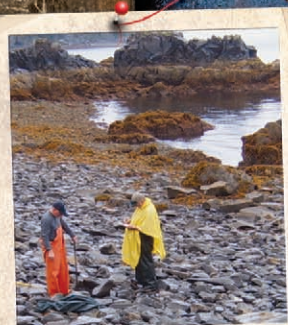

We search in swampy rainforest, often in the pouring rain, to look for reptiles and amphibians. We take every caution to protect our animals, cameras, and other gear, but we can always depend on our Rite in the Rain products! # Rite in the Rain around the world...

The Rite in the Rain notebooks continue to perform brilliantly under fire! They were really put to the test in Prince William Sound this August - torrential rain most of the time - but they did not fail and the field notes were still legible!  
- Edward H. Owens, PhD, Principal

Even the unpredictable winter months on Rapa Nui (Easter Island) my Rite in the Rain field notebook allowed me to take notes even while it was raining. Thanks for making such a great product!  
- Owen O'Leary

Since 1986, I've made over 16,000 ant collections, recording each one in Rite in the Rain notebooks. See them at [www.antweb.org](http://www.antweb.org)  
- Brian Fisher, Panama

I thank you very much for your great products. I am very pleased with them. Since being deployed, I have used my several Rite in the Rain notebooks. Thanks!  
- Russell Powell, Brazil, Brazil

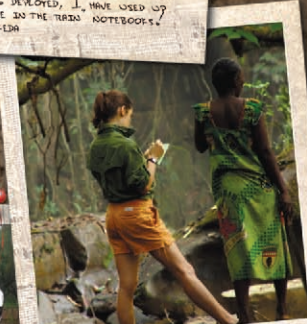

PATAGONIAN LANDSCAPE IS DEFINED BY THE PERMANENCE OF ITS JAGGED TOWERS SURROUNDED BY WIND AND RAIN THAT SEEM JUST AS CONSTANT. I WAS ABLE TO RECORD IN MY "RITE IN THE RAIN" DEAR WITHOUT THE FEAR OF THE ELEMENTS ERASING THEM!  
- Spencer Harrison

I can tell you that nothing holds up for long in a rainforest. While everything else crapped out within weeks, your products held up. Even during a recent cyclone, I was able to collect the invaluable data needed thanks to your amazing product!  
- Zach Harris, Madagascar

I work on active volcanoes around the world. As a scientist, the data I collect can impact the lives of thousands of people. In my pack and in my pockets you'll find my Rite in the Rain notebooks. I trust no other product to handle the stresses I put on myself and my equipment.  
- Steven Clegg, volcanologist, Yasuhiro

We are tropical, sustainable, design specialists (Creative.com). We carry three essential pieces of equipment in which we store our info - a camera, a GPS and our Rite in the Rain notebooks. Of the 3 it's the Rite in the Rain notebooks that have never failed.  
- Andrew & Beth Coates, Gabon

In the type of environment we work, you have to have gear that will hold up. Your Field Interview Notebook has passed the test and I will be buying more in the future!  
Thanks, Border Patrol Agent J. Hirsch

OVER THE YEARS I HAVE FOUND RITE IN THE RAIN PRODUCTS TO BE AN INDISPENSABLE PART OF EXPEDITION CLIMBING. THE DURABLE PAPER WITHSTANDS THE RIGORS FOUND IN THE HIGH MOUNTAINS THANKS FOR MAKING SUCH A DEFENDABLE PRODUCT!  
- Conrad Anker, Alpinist

"Rite in the Rain" is used around the world to ensure the data of some pretty amazing people.

## WORK SITE

### Job Briefing & Job Hazard Analysis Notebooks (4" x 6")

OSHA suggests proper preparation as the best prevention of workplace injuries. We at "Rite in the Rain" couldn't agree more, which is why we're releasing a new series of products to help make job education and workplace analysis easier. Both Notebooks are top spiral bound and contain 50, two-page forms (50 sheets). The Job Briefing Notebook form walks you through the eight pre-job points and has a spot to collect signatures. The Job Hazard Analysis Notebook form contains spaces for a task list, hazards identification, controls and signatures.
