

SONY

Monitor Line-up Comparison Guide **2004**

2004

Sony introduced the first series of broadcast monitors into the market in 1979 and marked the beginning of a commitment to advance the technologies of video monitoring. Today, Sony leads the industry with the most extensive range of broadcast and professional monitors – combining innovative features, superb performance and remarkable reliability.

Product Features

E Cinema/1080 Production

Digital cinema production requires a new generation of high-performance monitors – and the Sony BVM-F24U monitor meets the challenge. This display has been specially designed as part of Sony's CineAlta™ family of high definition products.

BVM-F24U

- True 24 frame progressive scan
- Displays both segmented frame and progressive formats
- 1000 TV lines in 4:3/16:9 modes, SMPTE-C phosphors
- Dual link 4:4:4 HD SDI input
- Graticule generator outputs most cinema aspect ratio formats
- Auto setup for presets, matrix, white balance, uniformity, and landing
- Includes digital convergence adjustment control

Multi-Format Broadcast Monitors

The BVM-D series of broadcast multi-

format monitors was introduced in 1999

to handle the demands of the DTV world.

These monitors accept a wide variety of

digital signals including 480i, 480p,

720p, 1080/60i, and 1080/24PsF. The

BVM-D series provides a complete line-up

– from 32" master monitors to 9" picture

and field monitors.

BVM-D24E1WU / BVM-D32E1WU

- 1000 TV lines 16:9 CRT using SMPTE-C phosphors
- Multiple format SD and HD display including 1080i, 1080/24PsF and 720P
- Matrix values for ITU 601, ITU 709, and SMPTE 240M colorimetry standards
- Auto setup adjusts presets, white balance, uniformity, and landing
- Automatically accepts measurements from most industry standard light probes
- 4 option slots for both analog and digital decoders
- RS 485 serial control for multiple monitor control

BVM-D20F1U

- 900/700 TV lines in 4:3/16:9 modes, SMPTE-C phosphors
- Multiple format SD and HD display including 1080i, 1080/24PsF and 720P
- Matrix values for ITU 601, ITU 709, and SMPTE 240M colorimetry standards
- Auto setup adjusts presets and white balance
- Automatics accept measurements from most industry standard light probes
- 4 option slots for both analog and digital decoders
- RS 485 serial control for multiple monitor control

BVM-D14H1U / BVM-D14H5U

- 800/600 TV lines in 4:3/16:9 modes, SMPTE-C phosphors
- Multiple format SD and HD display including 1080i, 1080/24PsF and 720P
- Matrix values for ITU 601, ITU 709, and SMPTE 240M colorimetry standards
- Auto setup adjusts presets and white balance
- Automatics accept measurements from most industry standard light probes
- 3 option slots for both analog and digital decoders
- RS 485 serial control for multiple monitor control

BVM-D9H1U / BVM-D9H5U

- 450/340 TV lines in 4:3/16:9 modes
- Multiple format SD and HD display including 1080i, 1080/24PsF and 720P
- Matrix values for ITU 601, ITU 709, and SMPTE 240M colorimetry standards
- Auto setup adjusts presets and white balance
- Automatics accept measurements from most industry standard light probes
- 3 option slots for both analog and digital decoders
- RS 485 serial control for multiple monitor control
- Optional lithium-ion battery packs available
- Audio capability and built-in speaker in monitor bottom (9H5U only)
- Rack mountable into a 19" EIA standard rack

Professional

Professional CRT Monitors

The professional line of Sony CRT

monitors provides high quality pictures and accurate and stable color reproduction.

Models in this series provide a wide range of picture sizes and functions to address the diverse needs of the industry.

PVM-14L5/1 / PVM-20L5/1

- 1080, 720P, 480P and NTSC multi-format display
- SMPTE-C phosphor CRTs for accurate color matching
- New compact chassis design consumes less space
- Optional input decoders to support multi-signal formats
- Selectable aspect ratio
- NTSC composite/PAL signals accepted automatically

PVM-14L2 / PVM-20L2

- New slot structure allows easy installation of input decoders
- 600 TV lines provide crisp, clear images
- Optional adapters for SDI, SDTI, and IEEE 1394 inputs
- SDI and SDTI embedded audio can be decoded with optional adapters
- Automatic detection of composite signal (NTSC or PAL)
- Auto/Chroma phase setup
- Beam current feedback circuit inhibits white balance drift

PVM-14L1 / PVM-20L1

- High resolution CRT with 600 TV lines resolution
- Automatic detection of composite signal (NTSC or PAL)
- Beam current feed back circuit for color balance stability
- Digital comb filter
- 6 language on screen display
- Loop through composite and Y/C video inputs
- Switchable aspect ratio 4:3/16:9

PVM-9L3

- High resolution CRT with 450 TV lines resolution
- New slot structure allows easy installation of input decoders
- Optional adapters for SDI, SDTI, IEEE 1394 or analog component inputs
- Automatic detection of composite signals (NTSC or PAL)
- Can be mounted side by side in a 19" EIA standard rack with optional bracket
- Compatible with Sony BP series batteries for DC operation
- Switchable aspect ratio 4:3/16:9

PVM-9L2

- New slot structure allows easy installation of input decoders
- New on screen menu system
- Optional adapters for SDI, SDTI, and IEEE 1394 inputs
- SDI and SDTI embedded audio can be decoded with optional adapter
- Automatic detection of composite signal (NTSC or PAL)
- Beam current feedback circuit inhibits white balance drift
- Can be powered by battery, external 12V DC or 120V AC
- Monitors can be mounted side by side in optional 19" EIA standard rack

Small CRT Monitors

PVM-9L1

- High resolution CRT with 250 TV lines resolution
- Automatic detection of composite signal (NTSC or PAL)
- 4:3/16:9 capability
- 6 language on screen display
- Monitors can be mounted side by side in optional 19" EIA standard rack
- Composite video and Y/C inputs

PVM-136 / PVM-96

- Utilizes D65 phosphor
- 1000 TV lines (PVM-136) / 900 TV lines (PVM-96)
- Underscan function to display entire active picture
- H/V delay to display horizontal/vertical intervals on screen center
- Switchable aspect ratio 4:3/16:9
- Built-in speaker for audio monitoring
- External sync for synchronization with other system equipment

PVM-137 / PVM-97

- 1000 TV lines (PVM-137) / 900 TV lines (PVM-97)
- Highly reliable black/white monitor
- Underscan function to display entire active picture
- Built-in speaker for audio monitoring
- External sync for synchronization with other equipment
- Metal cabinet to minimize signal interference

Standard Definition Broadcast Monitors

Sony's broadcast and production monitors are carefully balanced combinations of features, performance, and styles offering versatility and value for video production and high performance monitoring applications. All color monitors incorporate Sony's Trinitron® CRT for excellent image quality.

BVM-20F1U / BVM-14F1U / BVM-14F5U

- 900 TV lines (BVM-20F1U)
800 TV lines (BVM-14F1U & BVM-14F5U)
- HR Trinitron CRT with SMPTE-C phosphors
- Built-in auto alignment system for easy monitor set-up
- Optional decoder adapters / four option slots in rear panel
- Beam current feedback circuit for color stability
- Y/R-Y/B-Y/RGB inputs included
- Rack mountable into a 19" EIA standard rack

LUMA™

Sony Professional LCD Monitor

Professional LCD Monitors

Sony Luma™ monitors raise LCD performance to professional standards; combining production monitor features and performance with the benefits of LCD technology. The line-up includes multi-format displays with a unique two-piece design and multi-monitor packages for simple confidence monitoring.

LMD-170WS / LMD-230WS

- 17/23 inch LCD video monitors (viewable area measured diagonally)
- New two piece design
- Panel can be mounted up to ten meters from controls
- High resolution IPS LCD Panel offering twist speeds that allow display of HD
- Displays 1080i, 1080/24Psf, 720P, 480P, 480i, and NTSC
- Knob controls for contrast, brightness, phase and saturation
- Two option slots
- Option cards include SDI, HDSDI, and IEEE 1394 decoders

LMD-320WS

- Large widescreen 32 inch LCD video monitor (viewable area measured diagonally)
- Multi-format – displays 1080i, 1080/24Psf, 720P, 480P, 480i, and NTSC
- Two piece design – panel can be mounted up to 10 meters from controls
- Two option slots
- Option cards include SDI, HDSDI, and IEEE 1394 decoders
- Optional floor stand
- Production monitor features and functions

LMD-210S

- 21 inch 4:3 LCD video monitor (viewable area measured diagonally)
- Multi-format – displays 1080i, 1080/24Psf, 720P, 480P, 480i, and NTSC
- High brightness and high contrast IPS LCD panel
- Two piece design – panel can be mounted up to 10 meters from controls
- Production monitor features and functions
- Two option slots
- Option cards include SDI, HDSDI, and IEEE 1394 decoders

Available
Fall 2004

Professional LCD Monitors

LMD-440

- 4 X 4 inch LCD panel kit (viewable area measured diagonally)
- High resolution STN LCD panels
- 2 RU high cabinet
- Low power consumption, shallow depth, and low heat generation
- Offers optional SDI input cards that can be added at any time

LMD-530

- 3 X 5.6 inch LCD panel kit (viewable area measured diagonally)
- High resolution STN LCD panels
- 3 RU high cabinet
- Low power consumption, shallow depth, and low heat generation
- Offers optional SDI input cards that can be added at any time

LMD-650

- 6.5 inch screen (viewable area measured diagonally)
- NTSC/PAL/black/white
- Standard tripod screws on all four sides allow versatile field mounting
- Operates on 120V AC, 12V DC or battery
- Sun hood included
- Rack mountable with optional rack kit

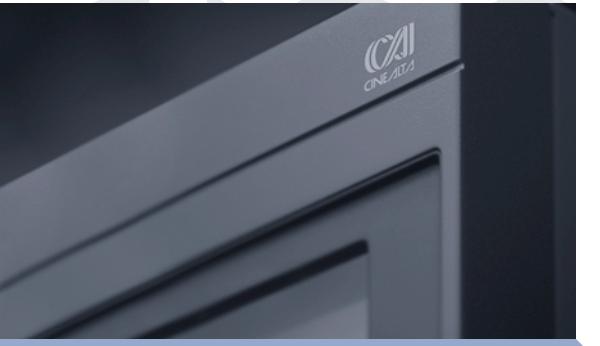

LMD-720W

- 2 X 7 inch 16:9 LCD panel kit (viewable area measured diagonally)
- High resolution STN LCD panels
- 3 RU high cabinet
- Low power consumption, shallow depth, and low heat generation
- Offers optional SDI input cards that can be added at any time
