Surge Eliminator/Power Conditioner
Line Interactive 1000 VA UPS
with Automatic Voltage Regulation

Protect your mission critical AV equipment with the new 1000 VA UPS Surge Eliminator.

Superior to standby UPS products, the SU-1000Li provides faster response, automatic voltage regulation, and battery backup during a brownout, blackout, surge, or power failure.

Unlike other UPS products, our SU-1000Li 1000 VA Line Interactive UPS is backed with SurgeX Advanced Series Mode® patented surge elimination technology to shield computer and AV equipment from catastrophic damage. The SU-1000Li also includes common mode and normal mode Impedance Tolerant® EMI/RFI filtering, and provides a sophisticated web browser-based interface to manage power settings, customize diagnostics, monitor multiple computers, and schedule shutdowns and restarts.

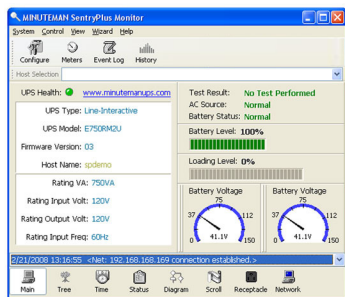

- Provides A-1-1 Certified fail safe protection from surges, spikes, blackouts, and brownouts.
- Automatic voltage regulation provides a stable AC source during less than optimal power conditions without constant use of internal batteries.
- Includes SentryPlus™ UPS power management and diagnostic software.
- Over/Under Voltage Protection
- Advanced Series Mode® surge elimination technology stops all surges up to 6,000 volts without producing harmful side effects such as ground contamination or common-mode disturbances, is superior to conventional MOV and MOV-Hybrid circuitry, and is completely non-sacrificial.
- Credenza Friendly-Only 10.5" deep!

Technical Description

The SU-1000Li is a 1000 VA line interactive uninterruptible power supply, surge eliminator, and power conditioner in a magnetically shielded steel enclosure. It operates from 120 volts AC and has a 6-foot, grounded, 3-wire #14 line cord. It has 4 grounded AC receptacles and two of these provide battery back up protection. Overall dimensions are 3.5" H x 19.0" W x 10.5" D. Weight is 32.0 pounds.

The SU-1000Li has a load rating of 15 amps at 120 volts, a self-test circuit with visual indicator, and provides EMI/RFI filtering. It meets Federal Grade A, Class 1, Mode 1 guidelines for power line surge suppressors and withstands at least 1000 occurrences of surge pulse voltages, up to 6000 volts. SentryPlus™ auto shutdown and monitoring software is also included with SU-1000Li hardware.
