

Since 1954

Enclosed Cargo Trailers

Long hauls or short treks.
Industrial applications or weekend adventuring.
Choose from a wide variety of sizes, styles, and customizing options.
Designed, engineered, and manufactured by the most respected name
in the cargo trailer industry — Wells Cargo.

With a Wells Cargo Behind . . . You Never Look Back!™

Mini Wagon®

Small in size. Big on brawn.

The Mini Wagon is the perfect companion for weekend road trips or daily small business hauling needs. It's just 4' wide and 6' long, but don't let the small size fool you. It has all the same tough construction you'll find in our bigger commercial grade trailers. Designed to fit comfortably behind today's popular Minivans and SUV's, the Mini Wagon's compact size and low profile deliver unparalleled towability. You'll hardly notice it's behind you, except for the look of envy from passersby. To top things off, the Mini Wagon features a high impact thermo-polymer roof. In the case of a Wells Cargo Mini Wagon . . .

"Good things do come in small packages!"

SPECIFICATIONS Mini Wagon®

MODEL	MW6

Service Wagon®

Ready to roll . . . Work or play!

The user-friendly Service Wagon is eager to please and ready to follow. Just hitch this agile trailer to the back of almost any sized tow vehicle and you're ready to tackle the most formidable "to do" list. Whether it's camping gear for the scout troop, supplies for your catering business, or tools for the job site, the Wells Cargo Service Wagon is up to the challenge. And, just like the larger trailers in our cargo trailer line, the Service Wagon doesn't skimp on quality. You can tell by our advanced design, top-notch components, and fit & finish that we're serious about our position as the industry leader. Turn to Wells Cargo if you're serious about getting a great value.

Single Axle Tote Wagon®

Doesn't Mind Working Overtime

Business or pleasure, short jaunts or long treks, the Tote Wagon is the "go to" trailer of choice. In fact, if there was an award for the **MVT** (Most Versatile Trailer), the Wells Cargo Tote Wagon would win hands down. This multi-purpose six footer is an uncompromising blend of solid engineering, built-in durability, and everyday utility. The streamlined body silhouette and independent rubber torsion suspension system deliver unsurpassed road stability. Wherever you go your Tote Wagon will follow . . . no need to look back. We've also given a high priority to reducing maintenance and retaining resale value. You have more important things to do with your time than pamper your trailer.

Features optional equipment available at additional charge.

At home on the job.

Day after day, job after job, year after year, the cargoWagon proves that it's built to go the distance . . . and then some! Go ahead. Put us to the test. We're confident you won't find a longer lasting trailer than a Wells Cargo cargoWagon. You can achieve that kind of durability when you focus on building a better trailer, rather than cutting corners. Everyday is an ongoing challenge to improve our manufacturing processes assuring you get the most trailer for your hard earned dollar. We've been doing it for over 50 years and we're not about to change now. After all, striving for quality is a hard habit to break. Models shown feature standard 102" wide axles with a flush floor – no obstructions to hinder loading. Models with 96" overall width (with interior wheel boxes) also available.

Features optional equipment available at additional charge.

Express Wagon®

It takes everything you've got!

Big jobs. You know, the ones that others back away from. Not the rugged Express Wagon. It was designed specifically for the tough assignments. Extra attention has been given to assure the highest performance and longest service life. Our chassis and frame design are the envy of the industry. We have literally

thousands of trailers still in service after 20+ years . . . that's more years than most of our competition has been in business! A wide selection of lengths, payloads, and customizing options mean you can find the right trailer for the business at hand. For even more cubic capacity, add the optional Wide Body configuration with a generous 95" interior width. Sometimes bigger is better.

SmartFrame Technology™

Sound Design. Solid Performance.

SmartFrame Technology begins with the understanding that the frame, although not very glamorous, is the true source of a trailer's durability. Without a solid foundation, a steel-structured foundation, everything else is just for show. The following pages highlight our SmartFrame Technology approach to trailer design along with many other exclusive features that assure your Wells Cargo will outperform any trailer on the market. We encourage you to compare. You might get a little dirt on your knees, but in the long run you'll be glad you did.

- 1) Torflex® Rubber Torsion Axles with E-Z Lube Hubs
- 2) E-Coated Silver Spoke Wheels
- 3) Goodyear® Radial Tires
- 4) ATP Fenders (Single Axle) or Smooth Aluminum Fenders (Tandem Axle)
- 5) Tubular Steel Main Rails
- 6) Full Height Steel C-channel Crossmembers
- 7) Radius Steel Corner Posts (Front & Rear)
- 8) Galvanized Steel Roof Bows
- 9) Structural Angle Top & Bottom Sills
- 10) Sidewalls with Vertical Wall Hat Posts on 16" Centers
- 11) Electrolysis Barrier
- 12) CPC Undercoating on Complete Chassis

Radius Corner Posts

Radius steel corner posts, front and rear, extend to the bottom of the frame providing the maximum welding surface possible. End rails and corner posts welded together both horizontally and vertically and gusseted for long lasting durability.

Body Frames & Roof Bows

All door openings are welded with formed steel channel headers and gusseted for rigid anchoring. One-piece roof bows are galvanized steel hat sections welded directly to top sidewall sills. Notched wall posts (see inset) provide smooth, level surface for skin.

12 Volt Electrical System

All 12 volt wiring is completely weather protected with no direct exposure to the elements or road hazards. The molded, 4-wire cable is routed inside the tubular main rail. All brake wiring is run through conduit into a welded channel on the axle.

Tubular Steel Main Rail Chassis

The heavy-duty tubular steel main rail used by Wells Cargo is more rigid and less likely to flex compared to "I-Beam" construction offered by other brands. Our full height steel cross members, end rails, and outriggers assure you get the strongest construction on the market.

NEV-R-ADJUST™
FORWARD SELF-ADJUSTING ELECTRIC BRAKES

Chassis is protected with a laboratory tested, Corrosion Preventive Compound, to deter the accumulation of rust.

- 13) Painted Steel Surfaces include Primer & Urethane Topcoat
- 14) .030 Prefinished Aluminum Exterior
 - ◆ 4', 5' & 6' wide models feature Bonded Panels
 - ◆ 7' and 8' wide models feature Rust Resistance Fasteners
- 15) Extruded Aluminum Roof Cove with Drip Rail (Anodized)
- 16) Extruded Aluminum Bottom Trim (Anodized)
- 17) Seamless Aluminum Roof (8' wide models feature Smooth Galvanized Steel)
- 18) Fiberglass End Caps (Front & Rear)
- 19) Double Rear Doors with Insulated Core Frame, Zinc Plated Steel Strap Hinges & Grease Zerks
- 20) Full Length Aluminum "Anti-Rack" Cam Bar

- 21) Stainless Steel Security Hasp
- 22) 1/4" Plywood Interior Sidewall Liner
- 23) 3/4" Exterior Grade Plywood Floor
(Exterior Surface Undercoated, Interior Surface Painted Gray)
- 24) Brake, Clearance & Marker Lights feature 12V LED
(All Exterior Lighting is wired using molded "plug-in" style wiring harnesses for a solid connection.)
- 25) Wells Cargo LED Safety Package
(Clearance Lights on Rear Roof Cap serve as a High Profile Brake Light and Side Clearance Lights serve as Turn Indicators.)

- 26) Lighted License Plate Holder
- 27) Positive Lock Ball Coupler Hitch with Replaceable "Locking Dog"
- 28) Top-Crank Jack with Sand Pad
- 29) Easy Access Junction Box
- 30) Weather-Protected 12V Wiring
- 31) D.O.T. Wet Cell Battery
- 32) Dexter® Nev-R-Adjust Brakes
(Standard on trailers equipped with electric brakes — 3500 lb. to 8000 lb. axles)

NOTE: Shown with optional Side Entry Door and ATP Stone Guard.

Options, Upgrades & Customizing

Every Wells Cargo enclosed cargo trailer is jam-packed with a laundry list of quality standard features. From a practical point of view, that's what you want. However, the real thrill comes from taking that dream trailer concept in your head and turning it into a reality. Wells Cargo has the selection, the resources, and the experience to build your cargo trailer just the way you want it. Do you like to stand out of the crowd? Choose from hundreds of striking exterior options. Or, maybe you're more of a "Do-It-Yourself" kind of person and prefer a garage on wheels. We can do that, too. Check out our generous assortment of interior upgrades that will really make you feel at home. It doesn't matter the size or the application, Wells Cargo is up to the challenge.

EXTERIOR COLORS

Wells Cargo and Our Legacy of Engineering Leadership

Many people say that all enclosed trailers look pretty much alike. We consider that a compliment since it was Wells Cargo who pioneered the industry over 55 years ago. State-of-the-art takes on a whole new meaning when you compare the first trailer we built in 1954 with our product line today. Old "No. 1" looked pretty good back then, but we've come a long way since. Experience has made the difference and ours is unmatched. Our Research & Development facilities keep us the frontrunners of the industry. After thorough evaluation and comparison, we think you'll agree that Wells Cargo has earned our long standing reputation as the premium cargo trailer on the market and the best overall investment.

Rest assured that after you make the decision to buy a Wells Cargo, our commitment to you is not over. Our comprehensive 6-Year "Never Look Back" Warranty Program is more than just words. It's about how quickly and responsibly we respond to your needs. It's the peace-of-mind you get knowing your investment is protected by an established company with a solid reputation. If our work or materials are at fault, we'll make it right. Any one of our six manufacturing facilities or our national network of professional dealers stand ready to service your trailer should the unlikely need arise.

More Great Trailers

For **WORK**, durable Wells Cargo trailers are used every day by Contractors, Landscapers, Fire Departments, Utility Companies, Heavy and Light Industry; anywhere value of investment is critical.

For **FUN**, you'll see Wells Cargo trailers carrying race cars, collector cars, snowmobiles, motorcycles, ATV's, antiques, and recreational/sporting equipment; anywhere reliable service and carefree towing is a must. You'll see Wells Cargo trailers pulled by big trucks, little trucks, passenger cars, and motorhomes.

You'll find Wells Cargo trailers in almost any situation requiring dependable, economical transportation and storage.
